Weather

Fine and cooler weather. The maximum temperature yesterday was 80.1 and the minimum 68.0, the figures for the corresponding day last year being 82.9 and 64.4.

SZECHUEN IS NEAR TAKING ICHANG CITY BUT WU COMES

General Arrives In Time With Reinforcements To Repulse Invaders

STEAMER IS HIT

Passenger Killed; Others Wounded On Dollar's Upper River Boat

(Staff Wire To The China Press)

Hankow, Sept. 17 (6 p.m.)—An attack made by the Szechuen troops on Ichang resulted in heavy fighting which lasted from midnight until noon today. The Szechuenese broke into the city in several places but were driven back owing to the timely arrival of General Wu Pei-fu at 1 a.m. with reinforcements, which saved the situation.

When entering the harbor the transports were heavily fired upon from the right bank. In the course of the fighting many shots fell into the compounds of houses occupied by foreigners as well as on ships in the harbor. A seaman on the Villalobos was slightly wounded.

The 16th Regiment of the 13th Division, composed of Northern troops, arrived at Ichang this afternoon.

PASSENGER IS SLAIN

(Reuter's Pacific Service)

Ichang, Sept. 18.—The steamer Robert Dollar proceeding to Chungking this morning was heavily fusilladed by Szechuenese from the South Bank as far as Sanyutong where fire was opened from both banks. One man was killed and one woman wounded among the passengers. The steamer has returned. The situation is delicate.

The steamer Tungting which was going to Hankow was also fired on but proceeded on its journey.

Northern soldiers are holding the Shuhun, which is flying the French flag.

Fighting continues in the Northeast.

WU IN NICK OF TIME

Ichang, Sept. 16.—The fighting last night was the severest there has been since the first Szechuenese attack, a fortnight ago. The invaders undoubtedly broke through the defenses, captured the White Temple, and penetrated the streets of the South Gate suburb. They were unable to hold their gains, however, owing to lack of fresh troops and ammunition.

General Wu Pei-fu arrived in the nick of time to throw fresh men into the battle, and thereby saved a precarious situation. The casualties were very heavy. The Northerners took 200 Szechuenese prisoners. The Red Cross corps is now working to succour the wounded.

General Wu Pei-fu says he is sorry to have to fight the Szechuenese as enemies, and would rather they would accept the terms of peace offered earlier, whereupon each side would return to its territory. He declares, however, that, if necessary, he will fight to the end.

Two foreigners while engaged in defense duties were fired at for 20 minutes, but escaped unharmed, and no others have been interfered with. A long struggle is expected.

SUN GATHERS FORCES

Canton, Sept. 14.—The commands designated by Dr. Sun Yat-sen for the projected Northern expedition, so far as known, consist of the Second Army Division of Kwangtung under General Hsu Shun-chi, the mixed brigade of General Li Lieh-chun, and the troops of General Li Fuk-lin.

The Yunnan and Kweichow commanders have also asked to be sent, but their details have not been assigned. It is likely that Dr. Sun Yat-sen will proceed earlier to the North with the troops than it was first expected.

Military secrecy is given by the authorities as the reason for the withholding of exact data regarding the present state of preparation for the expedition.

WU'S PEACE TERMS

Peking, Sept. 16.—According to a foreign dispatch from Hankow General Wu Pei-fu drew up the following terms of peace with Hunan prior to his meeting with General Chao Heng-ti on board the British sloop Mongolia.

1. Capital punishment for the ringleaders of the movement against Hupeh.

2. Disbandment of Hunan

(Continued on Page 2)

John Hays Hammond Comes On Steamer Golden State

Pacific Mail Liner Is Arriving Thursd y With Heavy U.S. Mail

The Pacific Mail Steamship Company liner Golden State, with 711 bags of mail and 2,000 tons of cargo for Shanghai will arrive from San Francisco Thursday morning early and is to berth at the China Merchants Lower Wharf.

John Hays Hammond, long identified with the biggest mining engineering projects all over the world, will arrive in Shanghai on the Golden State. He is making the round trip on the steamer from San Francisco.

The Golden State sailed from Yokohama Sunday and left Kobe last night.

ONE OBJECT AT HEART, IS THE ANSWER OF DE VALERA

Setting Up of Conference On Basis Of Lasting Results, He Says

(Reuter's Service)

London, Sept. 17.—Mr. de Valera sent the following telegram to Mr. Lloyd George this evening:

"We have but one object at heart, namely, the setting up of a conference on such a basis of truth and reality as would make it possible to secure the result which the people of the two islands so ardently desire."

The message adds that the leaders of Dail Eireann did not ask the Prime Minister to abandon any principle, even formally, and concludes: "The Dail can only recognise itself for what it is, and regrets if this self-recognition is made the reason for the cancellation of the conference."

LOYALTY COMES FIRST

London, Sept. 17.—Mr. Lloyd George has replied to Mr. de Valera's letter stating that the Government cannot consent to any abandonment, however informal, of the principle of allegiance to the King on which the whole fabric of the Empire, and every constitution within it, is based. So long as Mr. de Valera insisted on claiming that the Irish delegates should confer as representatives of an independent sovereign state, he pointed out, a conference was impossible.

London, Sept. 18.—Mr. Lloyd George has replied to Mr. de Valera pointing out that the latter's telegram does not modify the claim that the Irish delegates should meet as representatives of an independent State. He repeats his willingness to confer with Ireland as a member of the British Commonwealth but adds that unless the claim to negotiate as a sovereign State is withdrawn, a conference is impossible.

PREMIER OF CHINA SENDS RESIGNATION TO PRESIDENT

Refused, He Insists, and Successor Already Is Being Mentioned

WIRES TUCHUNS

Decision To Quit Is Told To Mudken And Chihli Warlords

(Reuter's Pacific Service)

Peking, Sept. 19.—The Cabinet situation today is scarcely altered. Mr. Chin Yun-peng again submitted his resignation this morning, but a meeting of Cabinet Ministers will take place at the Premier's residence this afternoon.

There appears to be no doubt that the President is willing to accept the Premier's resignation, while Generals Chang Tso-lin and Tsao Kun are endeavoring to persuade Mr. Chin to remain. If the latter persists in going out, there will be a struggle between the President and General Chang Tso-lin for the appointment of their respective nominees.

Dr. Yen's present intention is to retire, both from the Foreign Office and the Washington delegation, but enormous pressure is being brought upon him to induce him to reconsider his position, particularly in regard to the delegation, the absence of financial provision for which is the main cause of Dr. Yen's desire for retirement.

At the last Cabinet meeting the Premier insisted on cutting down the personnel of the delegation 50 percent. Dr. Yen had booked passages for upwards of a hundred, and apportioned the work amongst those notified of inclusion. He therefore contends that all his arrangements have been upset by the Premier.

Peking, Sept. 17.—After the meeting of the Cabinet today, Mr. Chin Yung-peng submitted his resignation to the President, who rejected it. The Premier also telegraphed to Generals Chang Tso-lin and Tsao Kun announcing his decision to retire and his position now depends on the attitude of these super Tuchuns.

The meeting was obviously stormy and it is reported on good authority that Dr. W. W. Yen also resolved to resign the portfolio of Foreign Affairs, though he has not yet done so.

It is generally believed that Mr. Chin Yung-peng will insist on retiring and Mr. Chou Shu-mou is already mentioned as his successor.

CONSIDER NEW CABINET

Peking, Sept. 18.—The Cabinet crisis yesterday arose from dissatisfaction with Mr. Pan Fu's financial policy and his resignation of the portfolio of Finance is considered a sine qua non of any new Cabinet or the reconstruction of the old one.

When the Premier handed the President his resignation yesterday, the latter formally refused to accept it, but questioned Mr. Chu Chi-chien regarding the formation of a Cabinet. Mr. Chu Chi-chien pointed out that the financial stringency at present precluded any reforms, and said he did not feel that he would be able to further the country's interests.

The President then telegraphed Mr. Chou Shu-mou, who was at Tientsin, but the latter replied in much the same strain as Mr. Chu Chi-chien. The President however again urged him to come to Peking if only to talk over the situation.

Well-informed circles still think Mr. Chin Yung-peng will go out of office and believe that Generals Chang Tso-lin and Tsao Kun will not oppose the Premier's retirement. Dr. Yen's resignation is being drafted and may be handed in this evening or to-morrow. If so, Mr. Chang Chin-tan, the Minister of Communications, will probably act concurrently as Foreign Minister.

Great pressure is being exerted on Dr. Yen, however, with a view to his withholding his resignation, but even if he should persist, it will not affect his position as head of the Washington delegation unless something unforeseen occurs.

The whole of North China is solidly behind Dr. Yen as the chief delegate, and his withdrawal would be viewed as a betrayal of the country as well as a serious check to a very promising diplomatic career.

JAPAN ASKS FRESH HOLD ON SHANTUNG RY. AND MINES

Official Communique Sets Forth The Nipponese Version Of Note

WANTS TO CONFER

Wild Conjecture As To Obata's Message Has Brought Publicity

(Reuter's Pacific Service)

Peking, Sept. 16.—The following is a Japanese official communique relating to Mr. Obata's Note to the Waichiaopu of the 7th instant and a Japanese translation of the Note:

In an interview on the 7th instant with the Chinese Minister of Foreign Affairs, the Japanese Minister presented to the former the compendium of items as the fundamental principles of negotiation for the settlement of questions regarding Shantung, appealing as he did to the earnest and serious consideration of the Chinese Government and urging again for the speedy opening of negotiations upon the matter. It was also proposed to the Chinese Government that the latter declare as soon as possible their willingness to open the said negotiations on the basis of the aforesaid compendium and that they appoint at the same time a commission for the purpose of arranging details and other matters relevant thereto.

In view of wild conjecture being freely made outside upon the contents of the proposal of the Japanese Government and threatening to give rise to misunderstandings it is now deemed necessary to make public the said compendium, in order to make clear the real state of affairs.

HERE ARE ITEMS

The compendium of items is as follows:

1. The leasehold of Kiaochao and the rights originally granted to Germany with regard to the fifty kilometers zone around Kiaochao Bay shall be restored to China.

2. The Japanese Government will abandon plans for the establishment of a Japanese exclusive Settlement or of an International settlement in Tsingtao, provided that China engages to open of its own accord the entire leased territory of Kiaochao as a port of trade and to permit the nationals of all foreign countries freely to reside and to carry on commerce, industry, agriculture and other legal pursuits within such territory, and that she further undertakes to respect the vested rights of all foreigners.

China shall likewise carry out forthwith the opening of suitable cities and towns within the province of Shantung for residence and trade of the nationals of all foreign countries.

Regulations for the opening of places under the foregoing clauses shall be determined by the Chinese Government upon consultation with the Powers interested.

3. The Kiaochao-Tsinanfu Railway and all mines appurtenant thereto shall be worked as a joint Sino-Japanese enterprise.

4. Japan will renounce preferential rights with regard to foreign assistance in persons, capital and material, stipulated in the Sino-German Treaty of March 6, 1898.

EXTENSIONS ONLY

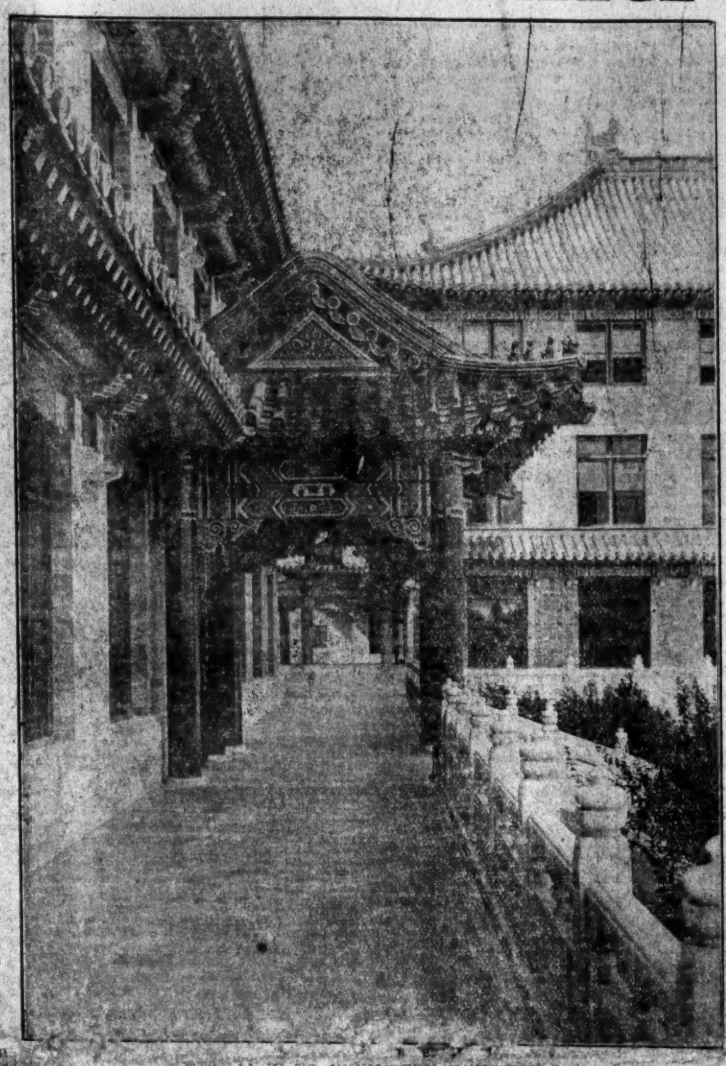
5. Rights relating to extensions of the Kiaochao-Tsinanfu Railway, and options for the construction of the Yientai-Weihsien Railway will be thrown open for the common activity of the international financial consortium in China.

6. The status of the Custom House at Tsingtao as forming an integral part of the general Customs system of China shall be made clearer than under the German regime.

7. Public property used for administrative purposes within the leased territory of Kiaochao will, in general, be transferred to China: it being understood that the maintenance and operation of public works and establishments shall previously be arranged between the Japanese and Chinese Governments.

8. With a view to arranging detailed plans, carrying into effect the terms of the settle-

J. D. ROCKEFELLER JR. DEDICATES MEDICAL COLLEGE TO AID CHINA



ENTRANCE TO CHEMISTRY BUILDING

INSTALLATION, FINEST IN WORLD, DECLARED READY TO HELP FIGHT DISEASE

Scores of Physicians and Hundreds of Laymen Listen With Rapt Attention To Address of Dedication By Richest Man In World Who Made It Possible

(SPECIAL TO THE CHINA PRESS)

Peking, Sept. 19.—The formal dedication of the Peking Union Medical College drew thousands to the grounds of the college today and was one of the most noteworthy functions of an educational nature that ever have been held in Peking. The Chinese officials, sensing the great work that the Rockefeller Foundation was endeavoring to do for their country, were largely in evidence in an effort to show their appreciation.

The dedicatory exercises were simple, but included an address by Mr. John D. Rockefeller Jr., who, as the head of the Foundation, was greeted with prolonged applause and was heard with rapt attention. His address was a straightforward statement of the regard in which the aspirations of the people of China should be held and an earnest of the work that the Foundation in this great medical school hoped to do for them.

The exercises began at 4 o'clock and were over shortly after 5. The keynote throughout was simplicity and simplicity sat well upon those who had invested more than $7,000,000 Gold in an effort to improve conditions of life and living in China.

The scores of physicians from various medical schools expressed in extravagant terms their appreciation of the magnificent plant that they had inspected and many said that there would be no lack of students to enjoy the unparalleled opportunities for study of medicine and surgery here in China.

Two adresses that will go down in medical literature were delivered, one this morning and the other this evening. The morning lecture was on problems of parisitology in the orient in which Dr. R. T. Leiper covered the matter of intestinal flora and fauna in comprehensive style, bringing many new ideas to bear upon the problem of eradicating them. The evening lecture was on biochemistry, past and future, by A. B. Macallum who opened many pathways of original research to the student.

BY ELLIOTT I. OSGOOD, M.D.

Peking, Sept. 15.—The week of program in which the Peking Union Medical College is to be dedicated and formally opened, began today. Dr. G. E. de Schweinits, President of the American Medical Association, gave the opening medical address this morning, taking for his subject, "Concerning the Evolution of the Ocular Symptoms of the Pituitary Body Disorders." One of the attending guests who has spent a lifetime at an interior hospital, remarked that he couldn't understand all the speaker was saying but it was worth while listening to such an address in which there was such grammatical perfection, fine rhetoric and such precision in the statement of scientific facts.

The average doctor, with furloughs coming once in five to eight years, has found it a problem to keep pace with the growth in medical science. Medical magazines come regularly to his desk but too often one, in reading some of the technical articles, finds himself able to pronounce the words but not to grasp the growing medical vocabulary.

TWO HOURS TRAMP

This afternoon the guests were escorted in small companies through the large group of buildings. Our guide set our group a pace which suggested he was anxious to reach the end early and have his cup of tea. After a more than two hours' tramp we also were ready for the tea.

The group of buildings are differentiated by letters instead of by numbers. Our tramps led us through most of the alphabet. We started in the chemistry building which is labeled "C." Then we swung through a corridor into "B" where the anatomy department has its quarters. From there we somehow found ourselves in "D," the physiology works. The medical and surgical wards, the outpatient and administration buildings, the pathological and obstetric departments, the power plant and nurses home, and "others too numerous to mention" flitted by under our feet and through our brains.

We went from A to Z, or nearly so, and then back again. Three stories to each building, with an interesting, often fascinating basement underneath all, kept us going with no thought of weariness until we had reached the end. This is not intended as a description of the wonderful plant. It will be necessary to consult the architects and departmental heads to get that information. All we can record

MALABAR REBELS NOT YET TAKEN; 2,000 STILL OUT

(Reuter's Service)

London, Sept. 19.—Official investigations show that the situation in Malabar is more serious than was at first anticipated. The military are experiencing difficulty in dealing with the rebels owing to the latter's mobility and the nature of the country, which is largely forest land, where formidable gangs are scattered.

The opinion is expressed that the recalcitrant Moplahs who fled to the jungle will be starved out if the main roads are held and certain areas garrisoned. Two thousand rebels are massed on the Pandalur hills in favorable position. Action is imminent and the use of artillery unavoidable.

Simla, Sept. 18.—In the Council of State the Home Secretary said that except in the immediate vicinity of troops and near railways the life and property of non-Moslems were not safe. The rebels, five bodies of which are known to exist, control certain areas, and the re-establishment of authority is impossible at present owing to transport and communication difficulties.

Brave Boy Meets Death; Reward For Family Suggested

A substantial recognition may be given the family of Tseu Siaudi, the 17-year old bookbinder's assistant who was shot and killed Sunday in what Assessor Hutchison in the Mixed Court yesterday termed a "public spirited attempt to capture two armed robbers."

Tseu joined in the chase after the two robbers, who had been detected in an attempt to pick a pedestrian's pocket at Pakhoi and Hoopoh roads. One of the fugitives turned at the entrance to an alley and fired. Two shots went wild.

The third took Tseu just below the heart. A fourth and fifth through aimed directly at the pursuing crowd had no effect. Tseu was rushed to the Shantung Road hospital where he died.

At the inquest yesterday afternoon, Assessor Hutchison said: "It would seem that the council might bestow upon the relatives of this boy some special mark of [illegible]

China Does Not Trail When It Comes To Slang

By Elsie McCormick

When the wandering Shanghai resident returns after a visit to America, his friends hang on his words with an interest that is not confined entirely to the news from home. When at last he remarks that an impecunious acquaintance "hasn't enough money to buy bird-seed for a cuckoo-clock," his auditors have the combined look of a fisherman who has caught something and a man who is filing away an important memorandum for future reference. At the next party they attend, any one of his hearers are likely to draw the conversation around to impecunious friends, just for the privilege of pulling the memorandum out of his cerebral filing-case and watching the results.

To be anywhere from two to five years behind on the latest slang is one of the penalties of living in Shanghai. Next to wearing peg-top trousers or trailing skirts after the style has been relegated to fire-sales, nothing gives the average American quite such a consciousness of antiquity as being behind the fashion in slang. To trim one's words with heading when everybody else is scalloping the sentences and adding fringe constitutes as serious a blunder as using the table-manners extant in the days of Good Queen Bess.

GOES ALL THE WAY

Though for the foreigners Shanghai is a Dead Sea of fossilised phraseology, to the Chinese it is the fountainhead of the merry quip, the pert sentence, and the latest fragment of argot, Nanking Road is China's Broadway, and many a bit of acrobatic language that originated in the New World has traveled by junk up the Yangtsze, by barrow into Szechuen and by yak into Thibet.

Over near Foochow Road is a theater devoted to Chinese plays of modern life, and deserving to be known as the Sing Song Girls' College. The little professional entertainers of Shanghai take post-graduate courses there in smart Chinese slang, which they use at dinner-parties later for the benefit of those hailing from the provinces.

Every foreigner who calls for a "Hwang pao tso" uses a bit of Chinese slang that originated when the stray Fidoes of the city were collected in a yellow pound wagon. Some Chinese, as he stepped into his ricsha that he was going for a ride in his "Hwang pao tso" or yellow dog wagon, and admiring acquaintances spread the phrase around the tea-houses until it became current from Chapei to Tungkadoo. The foreigner who stands on a street corner and shouts for a "Hwang pao tso," or as he often says "WOMBAW-TSO," doesn't usually realise that he is summoning the city pound wagon to come and give him a ride.

NOT SO DIFFERENT

A hat is a "lid" in both the Chinese and American communities. A man in jail is euphemistically spoken of as a "government guest," and a policeman is known as a "street watch-dog." Instead of "chicken-feed," copper change is called "small hair," and there are many disrespectful names for a silver dollar. "They have put down their barrows," indicates a strike, whether the phrase is used of barrow coolies, pastry cooks, or sewing women.

The query which on Main street might be rendered "What's the idea of the glad rags?" becomes on Nanking Road "Why so much paint?" The widower who marries again does not strike another match; he puts a new string on his guitar.

By a lingual coincidence, certain dialects describe death in a phrase of the battle-fields of France, "He has been gathered to the West."

Some of the Chinese slang expressions, however, could have originated only in the society of the Far East. Thus a man speaks of his father-in-law as "his mountain," the idea being that a father-in-law is a protection against all economic storms and a place for mining rich ores. This view of the function of a father-in-law would seem extremely optimistic in the Occident, where the married man who "lives off his wife's folks" is considered a matter for apology and a proper person to be served with chicken necks.

FOREIGN FLAVOR

When a mother declares that her children have official business, she uses a phrase which throws no violets on Chinese hygienic standards. The remark means that her young hopefuls are down with small-pox, so d because it is supposed to

DR. SUN NOT TO SEND DELEGATE TO CONFERENCE

(Reuter's Pacific Service)

Canton, Sept. 14.—It is understood that there is no likelihood of Dr. Sun Yat-sen's Government sending even an unofficial delegation to watch interests for the South at the Pacific Conference.

This decision is based on the policy announced by Dr. Sun in his recent declaration to the foreign Powers refusing to recognise the validity or force of any decision of the Pacific Conference relating to China, unless the Canton Government were to participate officially in the work of the conference.

Mr. C. C. Wu, Vice-President of the Board of Foreign Affairs in Canton, who has been offered the post of one of the Peking delegates, has refused to accept.

OMITS RACE QUESTION

(Reuter's Service)

Washington, Sept. 18.—It is understood that the question of immigration and racial equality is not included in the subjects which the United States has proposed for discussion at the Disarmament Conference.

GIVE TEA PARTY

(Reuter's Pacific Service)

Peking, Sept. 16.—About two hundred guests, chiefly representatives of the Chinese and foreign Press attended the tea party given by the Association to support China's cause at the Pacific Conference. Mrs. Sun Pao-chi, President of the Association, presided, and was assisted by Messrs. Hsung Shih-ying, Wang Tah-hsieh and other members.

Manila, Sept. 8.—Mr. Saburo Kurusu, Consul General of Japan in Manila, was mentioned recently as a possible delegate to the Far Eastern conference in Washington on November 11.

Mr. Kurusu stated however that he had received no intimation of this from Tokio, and said that his last instructions were to wait in Manila for the arrival of his successor, Mr. Sugimura, who has been Japanese consul at Portland Oregon.

Mr. Kurusu left yesterday on an inspection trip of the Japanese community in Davao.

CHANG AND TSAI CHOSEN

Peking, Sept. 16.—Mr. Chan Chien and Admiral Tsai Ting-kan have been appointed Advisers to the Pacific Conference attache to the Waichiaopu.

The Waichiaopu has appointed Mr. Lei Hsiao-min as Third Secretary of Legation in Mexico, and Mr. Kao Tsung-min as an Attach to the same Legation. Mr. She Tsu-teh has been appointed Secretary to the Peace Treaty Commission.

GERMAN BOOM IS FICTITIOUS, SAY BRITISH TRADERS

(Reuter's Service)

London, Sept. 17.—Telegrams received from Berlin recently describing the German trade boom have not impressed British textile manufacturers who declare that the boom is fictitious and certain to collapse quickly, as the Japanese boom during the war. German manufacturers, by offering attractive quotations undoubtedly booked big orders in the markets hitherto served by British houses but the goods sent were of the poorest quality and the British markets are now hurriedly despatching representatives to overseas markets with samples to prove that British goods are incomparably superior to anything that Germany can produce.

Shackleton Sets Forth For S. Pole

(Reuter's Service)

London, Sept. 17.—Sir Ernest Shackleton's Antarctic expedition sailed from London today aboard the Quest. Large crowds thronged the riverside and gave the adventurers an ovation.

WOULD AUGMENT LEAGUE GIVING FOUR MORE VOTES

(French Wireless through Reuter)

Geneva, September 18.—In an interview with a representative of the Temps, the Chilean delegate to the League of Nations, Senor Alvarez said that in view of the fact that the United States did not belong to the League and that there was no representative of the New World on the Council, the League of Nations ran the risk of losing its universal character.

Senor Alvarez expressed the opinion that the Assembly, in conformity with the Covenant of the League, could have a number of permanent and elected members. He suggested that the Council should consist of six elected members instead of four, and six permanent members, including Spain and Brazil, instead of four.

The Council of the League of Nations would thus gain four new members, while retaining the present eight members.

DENIES THE PETITION

Paris, Sept. 17.—The Temps states that among the petitions sent to the League of Nations asking for the reunion of Upper Silesia with Germany, was a telegram purporting to come from the Burgomaster of Grosseberek, in the district of Lublinitz, asserting the pro-German sentiments of his community. On being informed of this message, the Burgomaster has officially declared that it is entirely an invention.

OPIUM IS TOPIC

(Reuter's Service)

Geneva, Sept. 18.—Commission Five of the League of Nations today resumed discussion on the restriction of opium traffic, and adopted the conclusions of Dr. Wellington Koo's report relating to the ratification of the Opium Convention by States which have not yet adhered to it or ratified it and the means of securing the application of certain measures laid down in the Convention.

Szechuen Is Near Taking Ichang But Wu Saves Day

(Continued from Page 1)

troops until they were reduced to 15,000 men.

3. Withdrawal of all other provincial troops from Hunan.

4. Ten thousand troops to be stationed at Yochow by General Wu Pei-fu.

5. A frontier line to be established within which the Hunan troops must remain.

6. Hunan to be permitted to adopt self-government under the direction and control of General Wu Pei-fu.

Whilst no official announcement has been made regarding the settlement reached by Generals Wu Pei-fu and Chao Heng-ti it is understood that Clause I of General Wu's proposed terms was eliminated or reduced in severity but that the remainder were accepted by General Chao Heng-ti practically without alteration.

Peking, Sept. 17.—Telegrams from Hankow report that General Chen Shu-fan has joined forces with the Szechuanese and is now opposing General Wu Pei-fu.

TRAIN BLOWN UP

(Reuter's Pacific Service)

Vladivostok, Sept. 18.—A freight train was blown up on September 16 at the Twenty-third Verst outside Vladivostok.

Mixed Court Confiscates Opium Valued At $30,000

An opium ring, having as proprietor a mysterious Mr. "Kauh", whereabouts unknown, was deprived of its stock in trade in the Mixed Court yesterday, when Assessor Hutchison and Magistrate Li ordered the confiscation of more than $30,000 worth of the drug, together with the usual paraphernalia that goes with it: seals, chops, scales, account books, etc., all taken in police raids which were instigated by the Anti Opium Society.

Two houses, ostensibly legitimate business concerns, contributed to the collection of the opium in raids made simultaneously on the morning of Sept. 11. Four shop assistants and one apprentice found in possession of the raided premises were arrested charged with aiding the sale of opium. The cases were heard yesterday after a remand. The prisoners each were fined $50.

One shop at No. 13 Toong Gae Bai Ka, an alleyway between Honan and Kiangse roads, near Canton Road, was equipped as an office with books recording transactions chiefly for the sale of genseng. That shop was found to contain approximately $20,000 werth of opium, and nothing else of saleable character. The drug was found in back and upstairs rooms, mostly in small packets and small tins. The four assistants professed surprise when the opium was uncovered. They denied previous knowledge of its existence. They said their master's name was "Kauh" and that he had gone to Hongkong.

The second shop was located at 639 Canton Road. One apprentice was taken in the raid. Opium worth more than $10,000 was confiscated. When the raiding squad arrived the apprentice declared his master, named Kauh Hong-mow, had gone to Canton. He was found by the raiders standing near an open suitcase filled with opium. On a nearby bench were scales, wrappers, chops, etc. The seal denoted that the business formerly had been located in the French Concession, and that it had recently moved into the International Settlement. The shop's books were kept in a code, and so entered as to appear to be the records of an express company.

The raids were made by Police Officer D. S. Balchin, Sub. Inspr. John Wilson and D. S. Yorke, with squads. The Anti-Opium Society was represented by Dr. Mei, who gave testimony to the effect that operatives of his society had purchased opium in both of the raided shops. Mr. F. J. Schuhl defended the four arrested in the larger shop, while Mr. L. K. Kentwell defended the apprentice found in charge of the other. The defense was that the accused were not principals.

GREEKS FIND IT INADVISABLE TO PURSUE TURKS

(Reuter's Service)

Athens, Sept. 17.—The communiques of September 13 and 14, reviewing the "victorious advance in Anatolia" in July and August say that it was considered inadvisable to pursue the enemy further. The army has occupied the left bank of the Sangarios River. The operation of crossing was most successful and the Greek troops were not molested, but the enemy at dawn on September 14 tried to cross the river, but were attacked and driven back.

The newspapers at Athens are talking of the possibility of the Government trying to get the Asia Minor question settled by diplomatic means now that military operations have ceased.

MOORS LIBERATE CAPTIVES WHILE MAKING RETREAT

(French Wireless through Reuter)

Paris, Sept. 17.—An official Spanish communique from Melilla makes no mention of the Spanish offensive. Certain Madrid newspapers announce a march on Nadar but others state that this place has already been evacuated by the Moors, who have liberated a number of Spanish prisoners.

PARTISANS TAKEN

(Reuter's Pacific Service)

Vladivostok, Sept. 18.—On September 15 a Japanese reconnaissance party had a skirmish with a Partisan detachment near Manzovka, taking four prisoners.

Medals Are Awarded To Heroic Seamen

In recognition of the gallantry of Capt. E. R. G. Evans and officers and men of the British light cruiser Carlisle and the sloop Foxglove in rescuing survivors from the wrecked steamer Hong Moh the Committee of Lloyds have bestowed the following awards:

Gold medal to Captain Evans and silver medals to Com. G. H. Brady, of the Foxglove, Lieut.-Com. I. B. Tower, of the Carlisle, J. G. Dewar of the Carlisle, Ldg.-Smn. W. Eldrett of the Carlisle and Able Seaman Albert E. Whitehead of the Carlisle.

Lloyd's medal for saving life at sea, which was instituted in 1836 hitherto has been struck only in silver and bronzes, but the conduct of Captain Evans held such merit in the eyes of the committee that the members decided to award a gold medal in his case.

American School Holding Reception

A reception is being held by the staff of the American School from 4 o'clock to 7 o'clock today at 172A North Szechuen Road for nine new members who have recently joined the school staff. These are Mrs. Campbell, the Misses Austin, Hart, Reynolds, Mead, Mendenhall and Harris and Messrs. Miller and Van Hook.

Ll. George Better After Abscess In Tooth Is Lanced

(Reuter's Service)

London, Sept. 17.—A dentist has lanced the abscess on one of Mr. Lloyd George's teeth which was the cause of his indisposition. The Prime Minister is today much better.

PROF. R. D. SMART DIES OF CHOLERA

Soochow University Man Passes Away After Short Illness—Funeral Today

Prof. R. D. Smart, head of the Mathematics Department at Soochow University, died of cholera yesterday afternoon after an illness of but 12 hours. He was in excellent health Sunday morning and made his regular trip to Wusih, where he preached each week. He returned to Soochow Sunday night and was stricken at 1 o'clock yesterday morning. He died early in the afternoon. The funeral will be held at the Methodist Church, Soochow, this morning at 10:30 o'clock.

Professor Smart, who was 40 years old, had been a member of the faculty at Soochow for 17 years and was well known in Shanghai for his activities in various intercollegiate activities. He was president of the East China Intercollegiate Athletic Association and a member of the committee which selected the China team at the last Far Eastern Championship Games. In all phases of college life Professor Smart took an active interest and he often accompanied ataletic debating and other teams to Shanghai.

A native of Norfolk, Virginia, he was a member of the Southern Methodist Mission, coming to the China field in 1904.

Professor Smart was married in China 14 years ago to Mabel Davison, a missionary worker in Japan. He is survived by Mrs Smart, two sons, John, aged 13, and Francis, 11 years old, and one daughter, aged nine. The family is residing at Soochow. Professor Smart also leaves several brothers and sisters in America.

TWO LINERS SAIL FOR AMERICA THIS WEEK WITH MAIL

Nanking Leaves For San Francisco Tomorrow; Empress Friday

Two liners are sailing for America this week, the Nanking leaving for San Francisco tomorrow afternoon and the Empress of Japan of the Canadian Pacific Steamships Ltd., departing for Vancouver Friday. Both liners will take full passenger lists and mails.

Prominent among the passengers sailing on the Nanking are the three Chinese delegates for the World Press Congress to be held in Honolulu. They are Jabin Hsu of THE CHINA PRESS; K. P. Wong of the Shun Pao, and Hollington K. Tong, Peking Correspondent of the Weekly Review. Mr. Hsu goes on to Washington for the Disarmament Conference after the Press Congress sessions are over.

Others leaving on the Nanking are Mr. and Mrs. R. D. Bunn, Miss E. F. Buckley, Mr. and Mrs. J. F. Stitt, W. G. Lacey, Mr. and Mrs. C. H. Smith and Miss Mildred Wright.

The Nanking arrives at daylight tomorrow and the outgoing tender leaves the Customs Jetty at 4 o'clock. The steamer left Hongkong Sunday morning. The incoming tender is due at the Customs Jetty at 10 a.m. tomorrow.

EMPRESS SAILING

The Empress of Japan from Hongkong is due at Woosung at 1 a.m. on Friday, and will leave for Vancouver, via the usual ports of call, at 9 p.m. the same day. The tender Alexandra with incoming passengers from the ship is expected at the Customs Jetty at about 10 a.m. on Friday and the tender with outgoing passengers and hand baggage will leave the Customs Jetty at 4:30 p.m. on Friday.

Calls Statement Of Soviet Heinous

(Reuter's Service)

Paris, Sept. 17.—A semi-official statement on the subject says:

"The statement by the Soviet Agent in London regarding an alleged attempt by the French Government to bring pressure to bear on Poland and Rumania to induce them to make war on Russia has created a stir both in London and Paris.

"There is no truth whatever in the above statement, which is especially heinous in view of France's present unselfish efforts for succouring famine-stricken Russia.

"The positive guarantees insisted on that the relief be not diverted from its object and be really apportioned to the starving population is probably what aroused the anger of the Soviet authorities.

"The suspicion cast by the Soviets on the real purpose of the contemplated mission of enquiry is preposterous."

The International Commission of Relief to Russia today invited the nations to send delegates to a meeting to be held on October 6 in Brussels at the same time urging the expediency of first sending a mission of enquiry to Russia.

HEADS FLOOD RELIEF

(Reuter's Pacific Service)

Peking, Sept. 16.—Mr. Chi Yao-shan recently suggested to the Government the appointment of a special delegate to manage affairs relating to flood relief in Anhui and the Government has nominated Mr. Hsu Shih-ying, former Minister of Communications, for the post.

INSPECT TOULON PORT

(Reuter's Service)

Paris, Sept. 18.—The Chinese officers of the mission temporarily attached to the French Army have arrived at Toulon to visit the naval establishments there. They will also visit the dirigible and seaplane centers at Duers and St. Raphael.

RUSSIAN PRINTING

We are prepared to execute promptly and in effective style:

NEW AMBASSADOR OF U. S. IN TOKIO

(Reuter's Pacific Service)

Tokio, Sept. 17.—Mr. Charles Beecher Warren, the new United States Ambassador to Japan, arrived this morning at Yokohama, accompanied by Mrs. Warren, their three sons, tutor, nurse, and Mr. Moffat, the Second Secretary of Embassy. They were met at the quarantine station by Mr. Edward Bell, the Charge d'Affaires, the military and naval attaches and Japanese officials. At the wharf, delegations of the American Legion and the American Associations of Tokio and Yokohama gave them a most enthusiastic reception.

In an interview with a press representative, Mr. Warren said that as an American, he hoped to be helpful to his own country in his official capacity and that later morning, Japan's requirements and aspirations, he hoped to be helpful in presenting them to the United States Government.

Mr. Warren and party departed by motor car, having informally notified the Foreign Minister of his arrival.

NO SETTLEMENT OF SANCTIONS YET SAYS PARIS PRESS

(French Wireless through Reuter)

Paris, Sept. 17.—Newspaper reports from Berlin give it to understand that proposals have been made to the German Imperial Government with a view to the withdrawal of the economic sanctions and that a satisfactory solution is probable. The Paris evening papers learn that these reports are not correct. It is true that conversations are proceeding at Paris between the Minister of Foreign Affairs and the German Embassy, but they have not yet resulted in a settlement of the question being reached.

The Allied Governments, which are in complete agreement, despite rumors to the contrary emanating from Berlin, firmly uphold the decisions taken on August 13 at the Paris Conference which subordinate the withdrawal of the economic sanctions to the acceptance by Germany of an Inter-Allied organisation entrusted with the examination of the import and export licences of firms situated in the occupied territory.

The newspapers add that the German Government was today officially informed that complete agreement on this point existed between Paris and London.

DOUBLES THE REWARD

(Reuter's Service)

Berlin, Sept. 18.—The Government has increased its reward for the apprehension of the murderer of Herr Erzberger from 100,000 marks to 200,000 marks.

SENDS PERSONAL REPORT

(Reuter's Pacific Service)

Peking, Sept. 16.—Mr. Alfred Sze, Chinese Minister at Washington, has telegraphed to the Government saying that Mr. Pih Mingyu, Secretary of the Legation, is now being sent home to report officially on a matter of importance. Mr. Pih is now on his way to China and is expected to arrive in Peking about the beginning of October.

ARBUCKLE'S HOPE OF FREEDOM GETS SHARP SETBACK

(Reuter's Service)

San Francisco, Sept. 17.—Fatty Arbuckle was so confident of his release on bail that he reserved a portion of last evening's train to Los Angeles. He is however still in prison.

The District Attorney announces his intention of prosecuting Arbuckle to the limit of the law, but says that the question of whether the charge will be one of murder or manslaughter depends on the decision of the police court magistrate on September 22.

RIDDLE ARBUCKLE FILM

Thermopolisis, Wyoming, Sept 17.—A party of cow-boys and others invaded a picture theater where an Arbuckle film was being shown and riddled the screen with bullets. They then carried the film into the street and burned it. The proprietor of the theater had ignored a warning that the showing of the film should be discontinued.

SARRAUT PLANS LONG TRIP IN FRENCH AFRICA

(French Wireless through Reuter)

Paris, Sept. 18.—The Temps states that M. Albert Sarraut, the Minister of Colonies, will sail from Brest on Tuesday next on board the French cruiser Amiral Gueydon for French West Africa. The Minister will make a short call at Port Etienne, in Mauritania, where he will be joined by M. Martial Merlin, the Governor-General of French West Africa. He will then proceed to Konakry, in French Guinea, where he will remain about a week. The Amiral Gueydon will then go to Dakar where M. Sarraut will stay a sufficiently long time to enable him to inspect the principal educational institutions and public works. At Dakar he will lay the foundation stone of the monument to Governor-General von Vollenhoven. Finally the Minister will visit St. Louis, the capital of Senegal and Mauritania, and will proceed as far as possible along the Thies-Kayes line which is at present under construction.

MIKASA ON REEF

(Reuter's Pacific Service)

Vladivostok, Sept. 18.—The Japanese cruiser Mikasa returning from a trip to the Imperial Harbor on September 15 ran aground on a reef outside Vladivostok in the fog at night time.

REPORT IS CONFIRMED

Tokio, Sept. 17.—The report from Vladivostok that the warship Mikasa had run aground thirty miles south of Ussuri Bay is officially confirmed here. The Yodobashi and Kaduga have been sent from Maizuru to her assistance.

PEARON, DANIEL & Co., Inc.

BERLIN OVERRIDES BATH RESTRICTION IN PUBLIC PLACES

Insist Upon Making Ablutions In Parks Despite Police Warnings

TIRED OF 'VERBOTEN'

Profiteering Managers Of West End Cabarets Charge 1,000 Marks For A Meal

Berlin, Aug. 6.—Efforts on the part of the Berlin police to prevent bathing in the parks here on hot days have aroused the indignation of the Germans. In old days public bathing was forbidden at any places other than restricted lakes and beaches and might be indulged in only at certain hours.

With the revolution, however, the Germans asserted their freedom in this connection and began swimming in any waters they pleased, and any kind of a bathing costume appears to be admissible. A trip to Potsdam shows the bathing beaches there swarmed with thousands of bathers daily, some of them partly dressed and some wholly naked and resembling pilgrims washing away their sins in the Ganges at Benares.

Sun bathing also is becoming popular. Any person walking along a beach soon finds himself in the midst of men and women lying in the sand. Apparently they are all happy and healthy, although house owners in the vicinity of the bathing places and societies for the preservation of social prudery are voicing indignant protests. Recently mounted policemen have been riding the bathing beaches where the freedom of the sun bathers was declared to be too great and have rounded up many of them and marched them off to police stations.

The general public, however, judging from the numerous protests which have followed these roundups, prefer to have freedom instead of the traditional "verboten," which ruled Germany for years, and to continue their bathing where and how their fancy dictates.

The heavy taxes have provoked wild extravagances in Berlin's West End, where the high life is being taken advantage of by profiteering managers of cabarets and other amusement places.

In the so-called Pleasure Palace in the Kaiser Alle, one will pay 1,000 marks for a meal and the prices of drinks are in proportion. The guests are taken through an opium room where a Japanese offers pipes to the amateurs. There is also a harem room where a solemn pesudo-Pasha sits surrounded by a group of doubtful looking Turkish beauties.

But the principal attraction at this establishment is the ballroom. Here not only professional beauties but many women of good social position come, masked as a rule, seeking for adventure as the Tiergarten Palace offers a convenient rendezvous for an excitement and have the money to pay for it. Naturally one hears of many scandals. Poverty is driving many women of good families to adopt "the easier way" in an effort to live.

THINKS BABY'S OWN TABLETS SAVED HER BABY'S LIFE.

Canadian mothers have known and trusted Baby's Own Tablets for years. Here is one such mother's experience:—

"I think I can thank Baby's Own Tablets for my baby's life. He was badly constipated, but after giving him the Tablets they relieved him almost at once. I also find them good when he is at all restless and I feel that I cannot say too much in their favour," writes Mrs. John N. Pringle, Forest Falls, Ontario.

To mothers everywhere Baby's Own Tablets, the Canadian children's remedy, are a real friend. They gently regulate the bowels, make teething easy, are a specific for colic, diarrhoea, indigestion, simple fever and worms. Contain no opiates, are guaranteed absolutely harmless for the youngest child. Of chemists, also post free, 60 cents the vial, from The Dr. Williams' Medicine Co., 93 Szechuen Road, Shanghai.

HELD BY ARMY COURT

(Reuter's Pacific Service)

Harbin, Sept. 13.—The Russian colony and business circles are greatly alarmed by the rumor that Mr. Shevchenko, who is being kept in prison by the Chinese, will shortly be courtmartialed. It is understood that Mr. Shevchenko is charged with helping Ungern and supplying him with arms and ammunition. Mr. Shevchenko, who is very well known at Harbin, is the owner of many timber concessions.

REDUCES DIVIDEND

(Reuter's Service)

New York, Sept. 17.—The International Banking Institution, the Guaranty Trust Company, has reduced its quarterly dividend from [illegible] five percent to three percent.

LI STILL REFUSES

(Reuter's Pacific Service)

Peking, Sept. 16.—It is reported that Mr. Li Chia-ao still persists in his refusal to accept the appointment of Chief Justice of the High Court of the Chinese Eastern Railway zone.

LETTER SIGNED BY FUGITIVE IS SHIELD FOR GIRL

Vera Pohlmann Did Not Aid In American Jail Break Is Assertion It Makes

Letters that have been received by various newspapers in Shanghai purporting to come for Amos Norman, who escaped ten days ago from the American prison with Henry Muncie, who is again a prisoner, are not taken seriously by the Shanghai Municipal Police.

It is the evident intention of the writer of the letters to shield the Russian girl, Vera Pohlman, who has received much attention from the police since the two former members of the 15th Infantry, held as deserters, made their dash from the American prison after throwing ammonia into the face of G. J. Engberg, jailer, and after making a murderous assault upon him.

Since his arrest Muncie has protested his ignorance of what became of Norman after the two escaped and it is not thought that Muncie has any real information concerning Norman. Miss Pohlmann was taken into custody last week by the authorities as it was believed that she aided in the escape of the two prisoners.

In the letter that was addressed to THE CHINA PRESS the writer asserts with all emphasis that Miss Pohlmann did not aid in the escape in any way. While the writer admits that the girl brought the ammonia that later was thrown into the jailer's face, the letter asserts that she gave it to the jailer to be used in alleviating headache.

"I am troubled with my breathing channels clogging up," the letter says, "and I asked her to bring the ammonia. At the time I had no thought of using it as a means of escape.

"She brought the ammonia but not to me. Wishing to abide by the laws of the jail, she asked the day warder if I could have it and gave it to him. He told her that Mr. Lurton had to see it first so she left it with the day warder and that was the last she saw of it. That night and several nights after I used the ammonia given me by the night warder until the night before I escaped. I took a strong smell of it and the result gave me an idea to use it as a means of escape. That was before Muncie was brought to the jail. The next night I used the ammonia as a means of escape. Mrs. Vera did not know that I was going to escape at all. Because I asked her to come and see me the next day, she is now suffering for which I alone was to blame. Not even the man who went with me knew until an hour or so before it happened.

The gun I brought into the jail with me as I had it on me the day I was arrested and was not searched on entering the jail.

I was helped from outside but by a man. I wish the public of Shanghai to know this.

When this goes to Press I will be out of Shanghai but still in China. Here is Norman.

Thanking you, I am the escaped prisoner,

AMOS E. NORMAN.

BAVARIA IS STILL QUARRELING OVER ITS POLITICIANS

(French Wireless through Reuter)

Paris, Sept. 17.—According to advices from Germany, nothing definite can yet be said as to the ultimate outcome of the ministerial crisis in Bavaria. A meeting of Nationalists at Munich affirmed its confidence in Judge Roth, the ex-Minister of Justice, and demanded the return to power of Dr. von Kahr, who recently resigned the Premiership. The Majority and Independent Socialists met on Saturday to decide on their line of conduct.

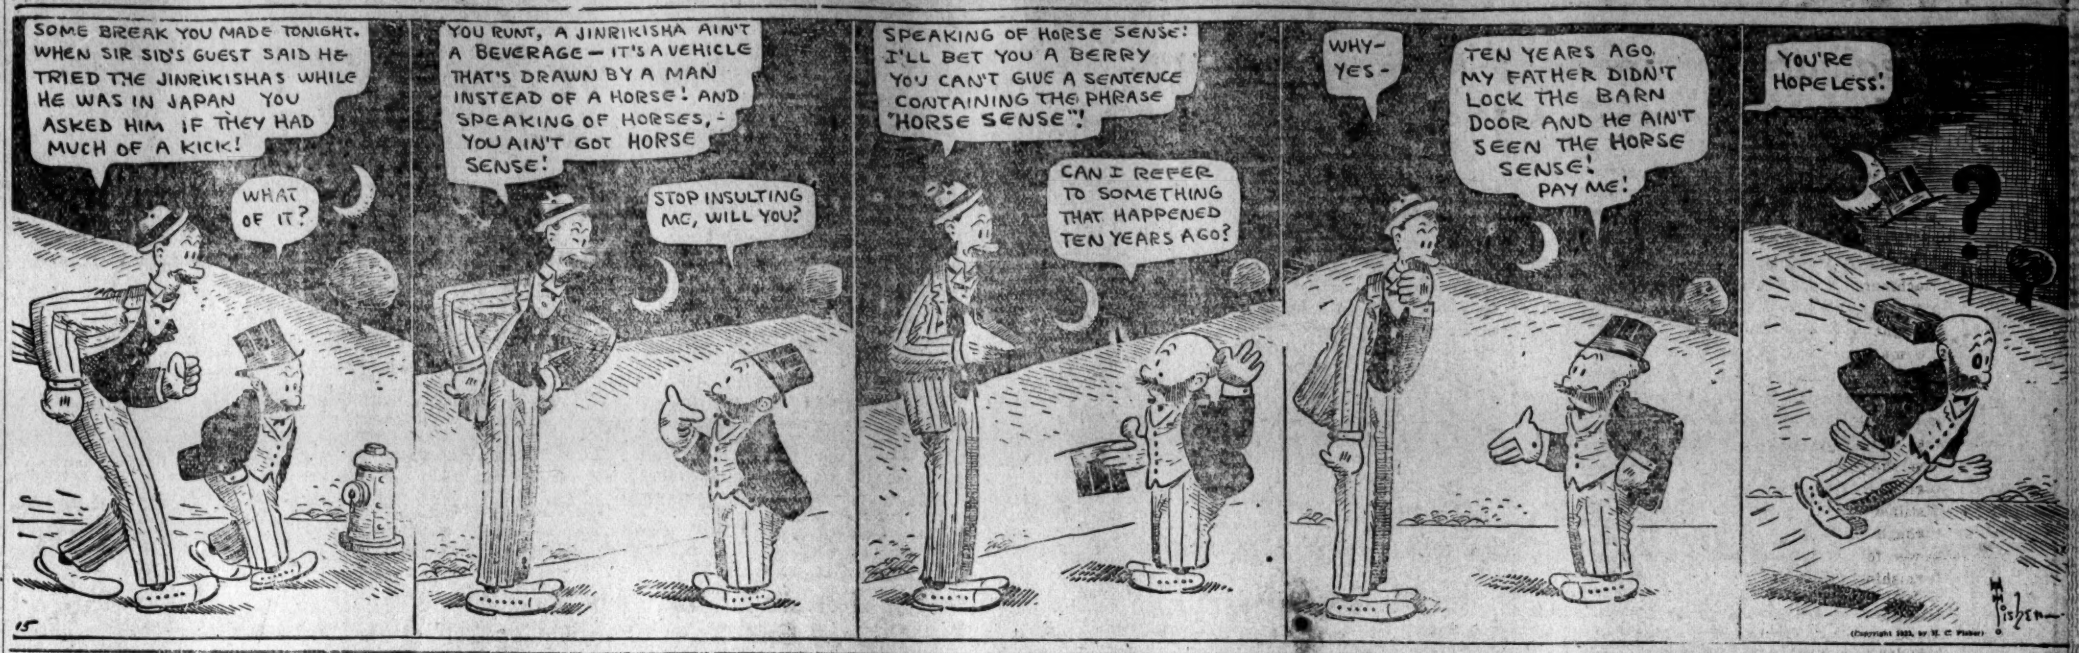
The Muenchner Post declares that the Bavarian proletariat will never tolerate the return of Dr. von Kahr. According to the Vossische Zeitung (Berlin) the People's party decided to propose Herr von Kahr as candidate for the Premiership, but his acceptance is doubtful. The Freiheit demands the starting of an offensive against the Bavarian reactionaries, either by President Ebert or by the German proletariat.

REJECTS RESIGNATION

(Reuter's Pacific Service)

Peking, Sept. 16.—The resignation of Mr. Li Chia-ao from the post of Chief Justice of the High Court of the Chinese Eastern Railway Area has been rejected by the Government on the ground that his services are necessary to carry out the legal changes now in progress.

MUTT & JEFF — Jinrikisha Does Sound Like A Shot Of Hootch At That — By Bud Fisher



SOME BREAK YOU MADE TONIGHT. WHEN SIR SID'S GUEST SAID HE TRIED THE JINRIKISHAS WHILE HE WAS IN JAPAN YOU ASKED HIM IF THEY HAD MUCH OF A KICK!
WHAT OF IT?
YOU RUNT, A JINRIKISHA AIN'T A BEVERAGE — IT'S A VEHICLE THAT'S DRAWN BY A MAN INSTEAD OF A HORSE! AND SPEAKING OF HORSES, — YOU AIN'T GOT HORSE SENSE!
STOP INSULTING ME, WILL YOU?
SPEAKING OF HORSE SENSE! I'LL BET YOU A BERRY YOU CAN'T GIVE A SENTENCE CONTAINING THE PHRASE "HORSE SENSE"!
CAN I REFER TO SOMETHING THAT HAPPENED TEN YEARS AGO?
WHY- YES-
TEN YEARS AGO MY FATHER DIDN'T LOCK THE BARN DOOR AND HE AIN'T SEEN THE HORSE SENSE! PAY ME!
YOU'RE HOPELESS!

China In Front On Slang Which May Grow Classic

(Continued from Page 1)

be as inevitable as the routine business of a government.

A wrinkled and gray-haired slang phrase in China is the application of the word "rice-kettle" to a person who contributes little to society. This phrase is now the proud father of a son, born in the modern theater near Foochow Road and already known on Shanghai's White Way from the Bund to Bubbling Well. Such a person is now designated as a "basket of bread," a phrase with a foreign flair that gives it true Shanghai smartness.

Undoubtedly there are linguist purists in China who rail against slang with the same abandon as language standpatters of the Western world.

But many a word which once had no home except vaudeville stages and city streets is now residing in the dictionary, next door to Greek roots that first flourished on the windy plains of Troy. Though some slang phrases die in infancy, others grow up, turn respectable and are eventually used by the editor of the Atlantic Monthly in a treatise against slang.

In China, many an expression that first saw the light in the New World may some day be dressed up in gold and given a front row position in a Presidential edict.

Japan Asks Fresh Hold On Shantung Ry. And Mines

(Continued from Page 1)

ment above indicated and for the purpose of adjusting other matters not embodied therein the Japanese and Chinese Governments shall appoint their respective commissioners as soon as possible.

9. The Japanese Government have on more than one occasion declared willingness to proceed to the recall of Japanese troops now stationed along the Kiao-chao-Tsinanfu Railway upon organisation by China of a police force to assume protection of the railway. As soon as the Chinese Government shall have organised such a police force and have notified the Japanese Government to that effect, the Japanese troops will be ordered to hand over to the Chinese police the charge of the railway protection and, thereupon immediately to withdraw. It is, however, to be understood that the question of the organisation of a special police guarding the Shantung Railway shall be reserved for future consideration between Japan and China.

Peking, Sept. 16.—The Peking Students Union resolved yesterday to send a delegation to the Waichiaopu to inquire into the Government's attitude towards the recent Japanese Note relating to Shantung while from Mukden it is reported that General Chang Tso-lin is sending Mr. Pai Wei-shi to Peking to ascertain the Government's views regarding the Shantung issue. Meanwhile the publication of the Japanese Note is considered likely to bring numerous expressions of opinion from organisations throughout China.

LOCAL BROKER'S ESTATE

WOMAN TO TELL OF HOW FRANCE IS RECOVERING

French Wireless through Reuter)

Paris, Sept. 18.—In contrast to the allegations of the German propaganda service that France is doing nothing to reconstruct her devastated areas, the Information states that an American lady, Mrs. William Nill, who has been a witness of the achievements of the inhabitants of the devastated districts, is bringing to the United States a film taken under her own supervision, which refutes the German allegations and will show the Americans by what stubborn labor the workers of North France have restored to their country the greater part of its former productivity.

The ten Departments which were either totally or partly invaded by the Germans, belonged before the war to the richest agricultural districts in France. After the armistice vast tracts of land formed only a desert, ploughed up by trenches and shells; villages had disappeared, agricultural implements had been carried off to Germany or had been destroyed on the spot and the factories and mines had been put out of commission.

Now after two years it is comforting to note, the paper continues, that the agricultural production in all the northern departments has almost reached the standard of the year preceding the war. In 1921 the Department of the Nord produced 2,325,000 quintals of corn as against a little less than 3,000,000 quintals in 1913. The Department of the Pas de Calais produced 2,634,000 quintals as against 2,863,000 in 1913. The Somme produced 1,820,000 as against 2,325,000 and the Aisne produced a little less than 2,220,000 as against a little less than 2,700,000.

The information emphasises the magnificence of these results, especially in view of the tremendous difficulties which had to be overcome in all the devastated districts.

Thousands Watch O'er R38 Victims At Navy Station

(Reuter's Service)

New York, Sept. 18.—In drizzling rain, thousands of people gathered today at the Navy Yard round the coffins of the American victims of the R-38 disaster. The ceremonies were ushered in by the tolling of bells on the warships.

Secretary of the Navy Denby, accompanied by the British Naval Attache, brought 15 wreaths from President Harding and the Cabinet. Sir Auckland Geddes, the British Ambassador, also sent a wreath.

The British, French and Brazilian sailors whose warships were in port participated in the services which were confined to the ritual prescribed by the United States Navy regulations.

Too Much Staring Makes Chaplin Flee Quietly To Paris

(Reuter's Service)

London, Sept. 18.—Charlie Chaplin left London for Paris this morning quietly, thus escaping the crowds.

Textile Trade Now Nearing Settlement

(Reuter's Service)

Paris, Sept. 16.—Thanks to the Government's mediation in the labor dispute in the North of France, the textile trade is now in a fair way to settlement. Perfect order prevails.

PEKING NOW HAS MEDICAL COLLEGE THAT IS PEER OF ANY IN THE WORLD

Dedication Ceremony Proves Brilliant Function And Is Attended By Thousands

(Continued from Page 1)

are a few of the discoveries which impressed us most.

WELL 3,500 FEET DEEP

While we stood gazing at the machinery which furnishes the power for the great plant, we thought again for a moment that we must be on board an ocean liner. Stokers keep fires night and day, under at least two of the great boilers. The engines pump the water supply from a thirty-five hundred foot well. They turn it into ice water, hot water, distilled water and force it through the plant. They furnish power for condensing air and for furnishing the lights.

We watched the group of Chinese in the laundry and wondered what a Chicago Chinese laundryman, patiently ironing away on a shirt bosom, would say could he be given the privilege of running all these modern machines.

One of the most interesting departments is where Chinese foods are being tested and analysed. They are taking every variety of Chinese food products and patiently grinding them through coffee mills, boiling, evaporating and separating the constituents of each in order to find their exact food values and how to use them in balanced rations.

TRY THEM ON MICE

Those in charge have a colony of somewhere near ten thousand mice upon whom they are using these foods. They already have three generations of some of these mice so they are able to trace the value of the foods unto children's children.

An interesting incident in what they have done was when they fed some old rice which Japan sent over for the famine refugees. Both the refugees and the mice which ate this rice died. Somewhere it had lost its power to impart nourishment to the eater.

Down in the kitchens they are at present cooking food for two hundred and fifty Chinese beside many foreigners. They could handle three times as many. Our guide showed us stoves upon which the Chinese cooking vessels rested and explained that they had to send clear to Chicago for a model in which gas is used as fuel, for that is the fuel of this institution.

The Chicago model had been developed for the preparing of chop suey. With all their machinery for sterilising, paring, cutting, mixing and otherwise preparing the food they are still able to produce steam biscuit with the same flavor of those one can buy at almost any Chinese restaurant.

When we reached the top floor of the building labeled "J" we found a series of operating rooms with their attendant sterilising, dressing, instrument and preparation rooms. The instrument cabinets reminded us of the day not long past when the Chinese government opened their first foreign style hospital in Peking.

Perhaps the story current at that time is not entirely true but it is said that when the dignified men who were appointed a committee for buying supplies came to the question of instruments they looked in perplexity at the great variety of surgical instruments in the foreign catalogue and finally decided to buy two of each kind. Of artery forceps alone there are many hundreds in the cabinets of this great hospital, and other instruments in corresponding numbers.

After our more than two hours' tramp through the great plant we emerged on the front terrace just as a city band headed a procession of the Chamber of Commerce who were bringing a complimentary tablet, inscribed to John D. Rockefeller Jr. This was later hung in the hall of the chemistry building.

In order that the scene might be recorded in the events of the week, they obligingly retraced their steps to the street, waited for the setting up of the moving picture machine and once more marched into the court. Cameras and picture machines surrounded the chair of state in which the tablet was borne. Following this the trustees, directors and other guests formed a procession and marched slowly across to "A" where the tea was being served.

Some of those present were Mr. John D. Rockefeller, Jr., Sir Beilby and Lady Alston of the British Legation; Mr. George E. Vincent, President of the Rockefeller Foundation; Dr. William H. Welch of Johns Hopkins, Baltimore; Prof. Paul Monroe, Dean of the Teachers College at Columbia University; Mr. F. H. Hawkins, Secretary of the London Missionary Society; Dr. James L. Barton, the secretary of the American Board Mission; Mr. Christian Reid, of London; Dr. Auriol Armitage, of the Medical Missionary Society of London; Mr. Martin A. Ryerson, trustee of the University of Chicago; Mr. Edwin R. Embree, Secretary of the China Medical Board, and Miss Margery K. Eggleston, assistant secretary of the China Medical Board in New York.

THE PHYSICAL PLANT

The mechanical plant consists of four 250 h.p. Babcock and Wilcox boilers, equivalent to 1,000 h.p., which supply steam power and heat throughout the institution. The electric generators furnish the institution with light and power. Generating capacity of 375 k.w.

Pure distilled iced drinking water is furnished throughout the buildings. Hot and cold water is furnished directly from the engine room. Refrigeration and electrically controlled hot rooms are distributed throughout the institution, and each laboratory is supplied with hot water, cold water, coal gas, compressed air low and medium pressure steam, 110 volt direct current, 220 volt direct current, and in some laboratories 4 volt experimental current.

The institution has its own private telephone exchange with approximately 200 telephones in use, being connected to the outside switchboard by 10 trunk lines. There is now being installed a "Refinite" plant which will make the water of zero hardness, such being an ideal water for laundry and institutional use as it effects a great saving in replacement of hot water lines and boiler tubes, which, with the hard water in Peking, quickly fill up with scale.

The hospital buildings are ventilated by means of electrically driven exhaust fans which completely change the air in each of the rooms from three to five times an hour, depending upon the speed of the fan. The main Out-Patient building is also supplied with water-filtered air.

Adequate sewage systems are provided for the entire institution. Sewage is pumped from the third section of the septic tank to the main city sewers by automatically controlled pumps. Garbage and refuse is disposed of through an incinerator on the property. On the second floor of "M" building is located a modern power laundry, which is at present handling 3,000 pieces daily.

INDUSTRIAL AREA

In the industrial group adjacent to the power house is located the coal gas plant, which supplies gas for laboratory illuminating and cooking purposes throughout the institution and the compounds. The present consumption of gas is approximately 20,000 cubic feet per day. The nitrous oxide plant has an adequate capacity to meet the demands of the institution for operating room use. The nitrous oxide and oxygen are pumped direct to the main operating rooms.

The heavy duty machine shop, the carpenter and woodworking shops, paint house, oil storage room, garage, precision machine shop and complete electro-plating shop are also located in this area.

The electric motors number 53; electric generators, 11; ventilating exhaust fans, 30; water filter air plants, 2; electric lights, 4,217; electric fans, 500.

Grand total floor area 298,809 square feet; total glass windows 33,922 square feet and total tiled walls, 64,001 square feet.

Cleanliness is some problem as the grand total square feet of surface to be cleaned is 530,654 square feet.

President Hsu And Family Interested In Health Films

Peking, Sept. 15.—Health films were shown in the President's palace last night by Doctors W. W. Peter and S. M. Woo of the Council on Health Education, Shanghai, who are in Peking attending the opening of Peking Union Medical College.

The presidential party included President and Madame Hsu Shih-chang, members of his staff and many of his relatives and friends who are living in the palace. The pictures were shown in a school room adjoining the President's own living quarters. There were many children present.

The president was particularly interested in the picure "How Life Begins," a four-reel biological film. The other films shown were Conquering Cholera in China, a picture taken in Foochow during the cholera educational campaign last year, the Fifth Far Eastern Olympic Games held in Shanghai in June, A Mouthful of Wisdom, a good teeth film, and Jinks, a Health Comedy.

The cholera film was most instructive and from the exclamations of members of the Presidential entourage, it must have made a deep impression. This film was taken last year after a most serious epidemic of cholera in Foochow. The idea it sought to instill into the mind of the Chinese was the terrible danger of eating food, especially fruit, that had been exposed to the contamination of flies.

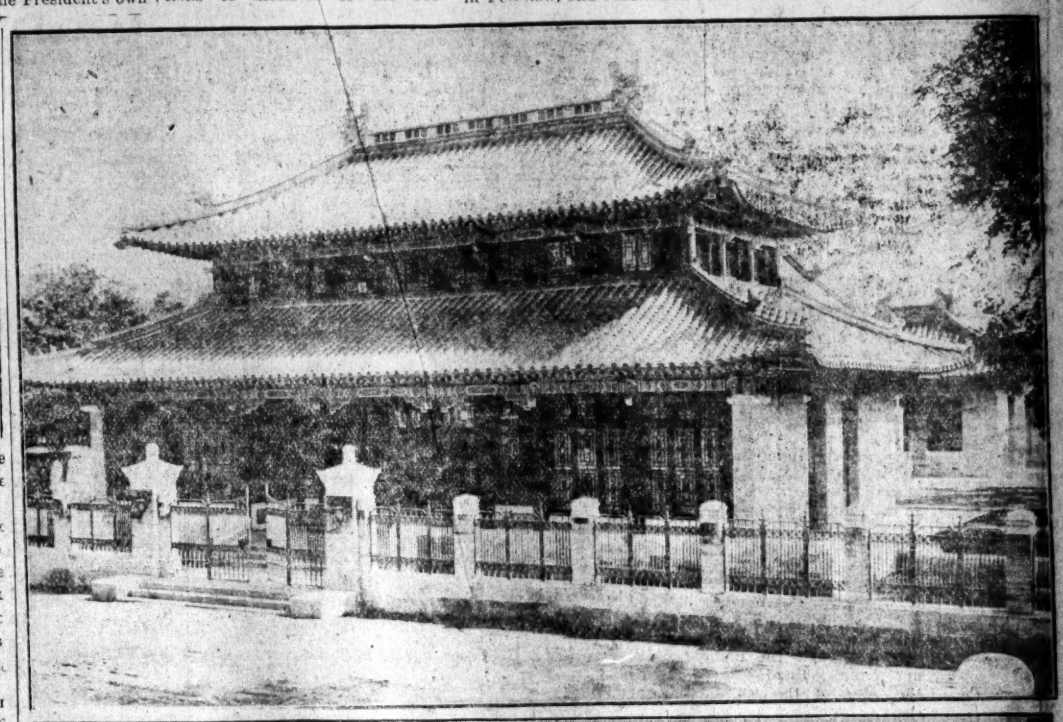
The movie message was couched in simple but striking terms. One fiost would be a watermelon stand with its wares left uncovered and showing a grour of purchasers cutting ear-to-ear gashes in the succulent fruit with their teeth. Then following the watermelon float would come a real Chinese coffin, carried by coolies swaying in unison to the mournful cadence deemed appropriate for the carrying of coffins.

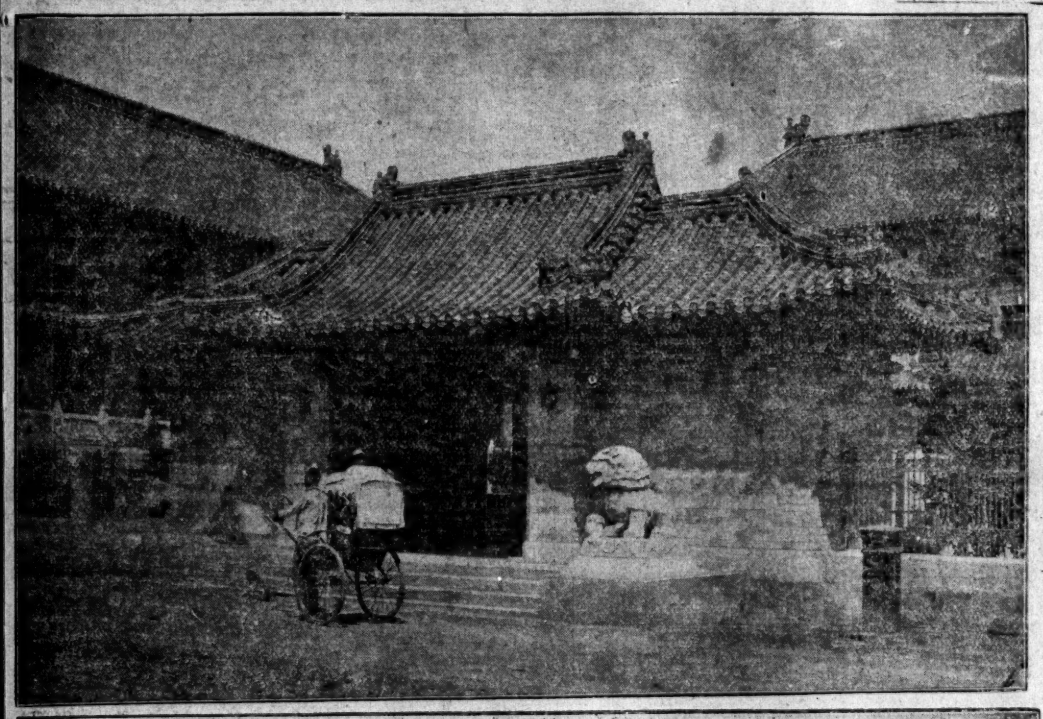
Incidentally, the film was shown in Foochow, and resulted in a riot. Eight thousand persons assembled before the doors of the Y.M.C.A. building long before the time for the performance and when the doors were opened, rushed in, a seething mob. The police had to be called out to eject all those who had no tickets. The populace not only was instructed by this film, but it put the lesson to such good effect that melon and meat dealers began to screen heir shop fronts and covered all their wares.

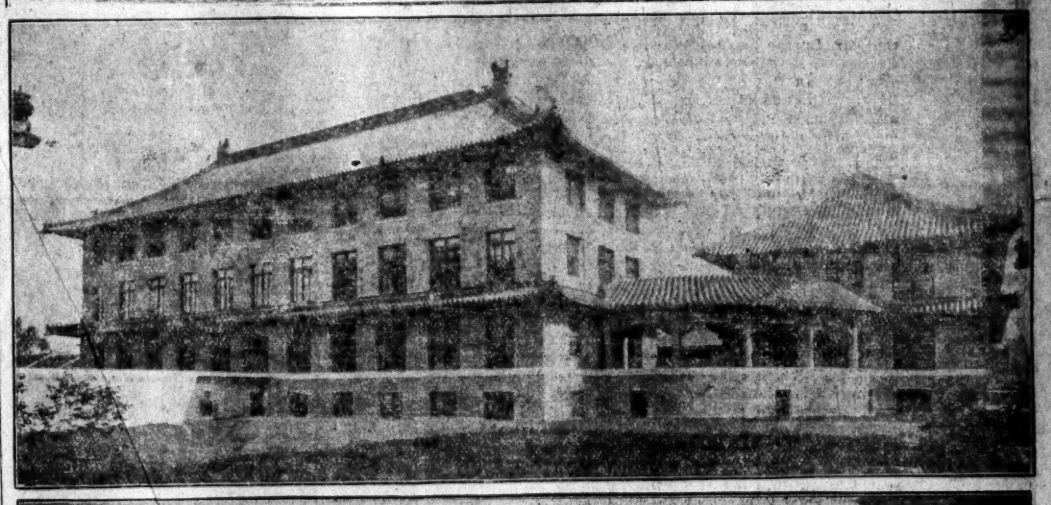
The people in general also benefited, since the deaths from cholera fell to the lowest in the city's history this past summer and, as no outcry was heard from the watermelon dealers, it is presumed that the screens and not an anti-melon wave were responsible. These facts had been communicated to members of the president's party and served to heighten interest in this film.

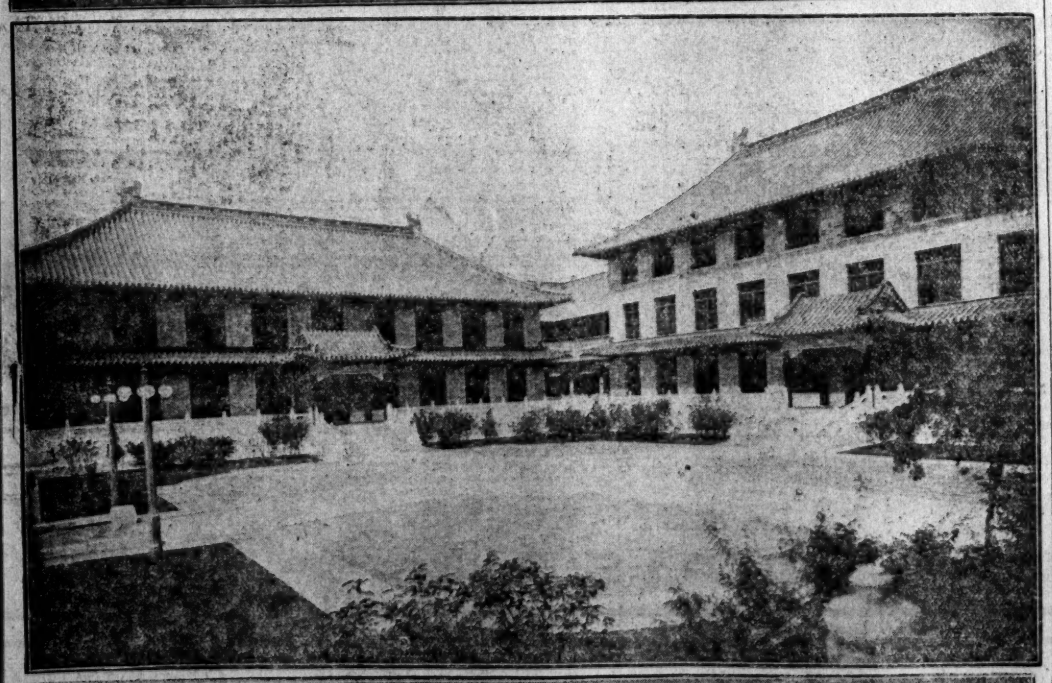
Photos Show Details Of Some Of The College Buildings

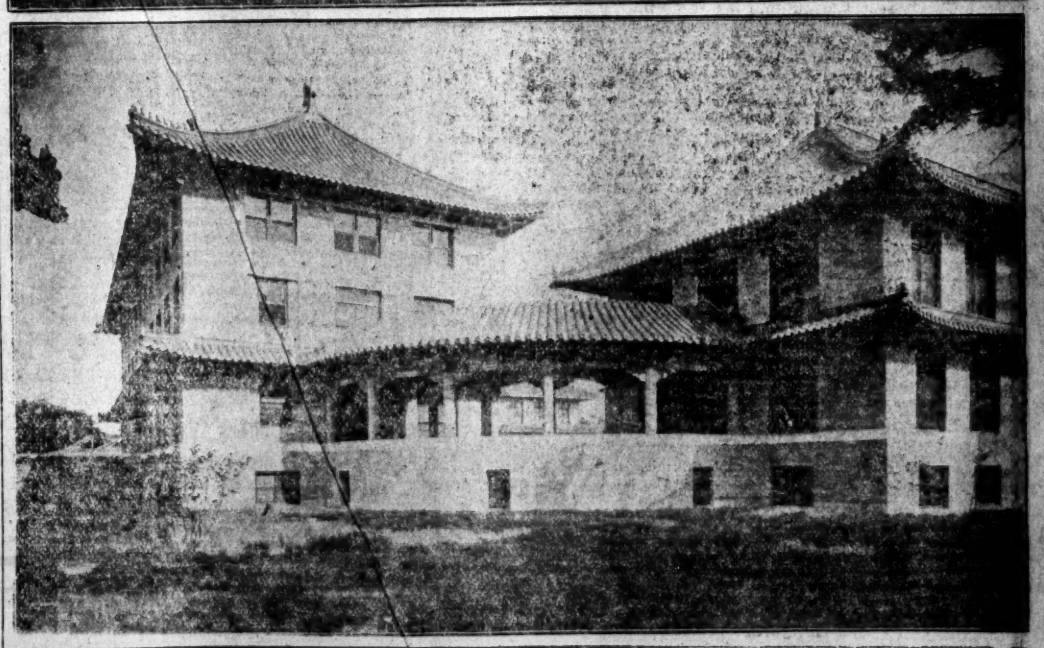
ON the left are: The entrance gate, flanked with stone lions, the front courtyard of the Medical School and an interior view of the Physiological Laboratory with students at work. On Right: The auditorium with its stately roof and characteristically Chinese windows; the chemistry building from the north and the same building showing its western elevation. At the bottom is a view of the pre-Medical School occupied while the new installation was being built. These buildings are planned to perpetuate the best in Chinese architecture and still be suitable for modern scientific uses.

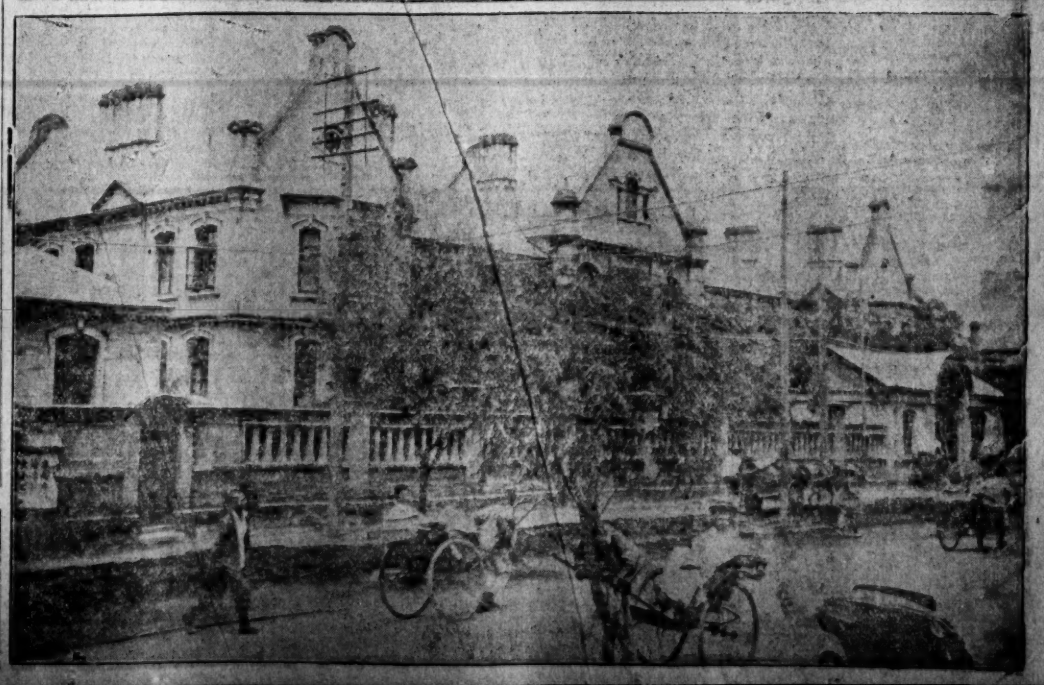












WOOD PARTY IS RESPONSIBLE FOR FAMINE IN CARS

Race Followers And Others Smile When Autos Are Commandeered

Did you attempt to hire a motor car Saturday afternoon?

If you did, or if you tried to get to the races at Kiangwan from one of the garages in the Central District, you were soon aware of the fact that General Wood was in town. For nearly all the cars were commandeered for the distinguished American and his party or by those who wanted a glimpse of the man who was once known as "the most talked-about man in the United States."

A big crowd was waiting at the Central Garage for a car to take them to the races. Six cars came into the garage and immediately the boys rushed for seats. Comfortably settled for the trip to Kiangwan, they were apprised by the clerk: "Sorry, gentlemen, but these cars are for General Wood." Without a kick or a complaint, the occupants left the cars, and away they sped for the Customs Jetty.

Empress Of Asia Sails For America

Among those who sailed Saturday from Shanghai on the Empress of Asia of the Canadian Pacific Ocean Services were Mr. and Mrs. E. C. Endt, Mr. N. S. Marshall, Mrs. E. A. Potter, Dr. C. J. Fox, publisher of the North China Star at Tientsin, Dr. J. C. Ferguson of Peking, advisor to the Chinese Government, who is going to the international disarmament conference at Washington, and Mrs. Ferguson, Mr. T. C. Huang of Peking, Mr. George E. Meyer, who is returning to Washington, D. C., Mr. W. P. Simms, representative of the United Press, and Mrs. Simms, Mr. Philip Tyau of Peking, a delegate from China to the Washington Conference, and Mrs. George Woodruff of Joliet, Ills.

The Empress of Asia sailed for Vancouver, British Columbia by way of Japan ports and is due to arrive at Vancouver on October 2.

Say Northcliffe Prefers U.S. Did Not Stay In East

(Reuter's Pacific Service)

Manila, Sept. 8.—Preparations are under way here to welcome Viscount Northcliffe when he arrives at Manila on his tour of the Far East. General Wood and Colonel Frank R. McCoy of the United States Army, both of whom know Lord Northcliffe personally, expect to welcome him if they return in time from Tokio.

According to Mr. Arsenio Luz a Filipino newspaper man who met Lord Northcliffe on his voyage from England to the United States, the latter believes that "it is not a good idea for the United States to remain indefinitely in the Far East." Mr. Luz states that Lord Northcliffe is keenly interested in the educational problems of the Philippines, and also in the attempts made to introduce modern methods of sanitation.

Quezon's Man Gets Long Prison Term

(Reuter's Pacific Service)

Manila, Sept. 8.—Angel Sevilla, former secretary-treasurer of the Manila Railroad, was convicted yesterday of withdrawing P.12,000 of the company's money without authority some months ago, and was sentenced to prison for one year and eight months. He is also deprived of the right to vote or hold public office.

The Manila Railroad is a semi-public concern of which Manuel Quezon, president of the senate, is president.

TREATY WITH MEXICO

(Reuter's Pacific Service)

Peking, Sept. 14.—It is reported that the agreement for renewal of the commercial treaty between China and Mexico will be signed within the next few days by the Chinese Minister, Mr. Wang Chi-tsung, and the Mexican Foreign Office.

LET US DO YOUR PAINTING
FEARON, DANIEL & Co. Inc.

Minerals Of China Is Conference Topic

(Staff Correspondence)

Peking, Sept. 17.—Hankow will entertain the largest aggregation of engineers ever got together in China, if the plans for the annual fall meeting of the Association of Chinese and American Engineers meet with no slip. The meeting for 1921 is scheduled for October 4-8, in the new office building of the Peking-Hankow Railway, which the railroad administration has lent to the engineers for their convention.

A very full program for the last two of the three days of the meet has been arranged by the committee. The first day will be occupied with registration and a Chinese dinner to be given by the hosts, the Hankow members of the organization.

Engineering papers to be presented are "The Minerals and Mining Industry of China," by Mr. C. Y. Wang, and a report by a special commitee on concrete piles with bamboo in place of iron reinforcement. This is a most interesting feature and is evidence that the association is endeavoring to solve problems peculiar to China and utilise resources peculiar to China in the furtherance of engineering progress in this country.

While in Hankow the engineers will visit the Hanyang Iron Works, the British Cigarette Company's new factory, the Hankow Water Works, and the nearby Tayeh Iron Mines. The government railways, as expression of appreciation of the services of the engineers, are providing free transportation to and from the convention.

American engineers and Chinese engineers educated in America comprise the two largest bodies of such technical men in China. Their co-operation in an association is doing much to provide that stimulus and interchange of ideas which technical men usually miss so keenly out here.

APPOINTED TO BERLIN

(Reuter's Service)

Berlin, Sept. 18.—M. Krestinski the Soviet Commissary of Finance, has been appointed Soviet representative in Berlin.

SEMENOFF PLANS TO LEAVE AREA HE ONCE RULED

(Reuter's Pacific Service)

Harbin, Sept. 15.—All reports to the effect that Ataman Semenoff has left Grodekovo and passed through Harbin under strong Japanese guard to Changchun are incorrect. The former Ataman is still at Grodekovo and although he is preparing shortly to leave for the South it is yet unknown whether he will pass through Harbin. It is understood that he is negotiating with the Vladivostok Government for a large sum of money, which he is supposed to require for urgent payments and other expenses connected with his departure. It is stated that these negotiations have hitherto been successful although now the Vladivostok Government, which is reported to be painfully in need of funds, will be able to raise this sum, which, it is said, exceeds 50 000 yen.

Semenoff's troops under the command of General Ivanov have officially declared themselves under the Vladivostok Government. Since this news has been announced, officers and men who previously belonged to Semenoff's army, but left it on account of not agreeing with the ataman's policy, are flocking to Vladivostok, where they hope to get pay and commissions.

It is persistently rumored that both partisans and regular troops are preparing to take advantage of this change in their enemy's organisation and to occupy Grodekovo and Nikolsk. The garrisons of these towns are considerably weakened as the men who have not been paid for months, deserted in large numbers and either joined the Kappel army or fled to Harbin.

TO DECORATE VICENZA

(French Wireless through Reuter)

Paris, Sept. 17.—Marshal Fayolle will shortly visit the Italian town of Vicenza, in order to present the Croix de Guerre, bestowed by the French Government.

Close Of Frontier Merchants' Ruin; May Be Postponed

(Reuter's Pacific Service)

Harbin, Sept. 13.—Mr. Ostroumoff, the Manager of the Chinese Eastern Railway, Mr. Sun Shao-En, the President of the Board and Mr. Pushkareff, Member of the Board, are now at Mukden, where they are having a conference with the Representatives of the S. M. R. with the object of fixing through freight rates and deciding various technical questions. Colonel Johnson of the Inter-allied Technical Board has also left for Mukden.

It is understood that the question of extending the time limit fixed for the re-opening of the Russian Customs at Manchuria and Pogranichnaia stations still remains open. This delay is creating great difficulties and it is said, may result in the closing of the frontier. It is understood however that strong representations have been made by the interested parties pleading for an extension, pointing out that that the closing of the frontier would mean a tremendous dumping of goods there and consequently ruin the merchants.

TO IMPROVE LAC

(Reuter's Service)

Simla, Sept. 18.—The Legislative Assembly has agreed to the introduction of a bill levying a small export duty on lac, the proceeds to be devoted to research and improvement of the lac industry.

Harbin Famine Aid Body To Limit Work

(Reuter's Pacific Service)

Harbin, Sept. 15.—The Russian-American Relief Committee formed here a month ago is now going to be called the Russo-International Committee. The Committee has made an appeal to the Consular Body asking for assistance and at its last meeting decided to limit its functions to relief work in North Manchuria and Harbin, where, as it is well-known, the number of refugees out of work and in ill-health is great. This decision of the Committee is unanimously approved.

A large portion of the population has been withholding from participation in the relief work on the ground that it feared that the collected funds would go to the strengthening of the position of the Reds. The present aim of the Committee has aroused the sympathy of all classes and there are all reasons to believe that the "Relief Day" organised by this Committee on September 20 will be a great success.

Snow On Fuji Passes Record Of 60 Years

(Reuter's Pacific Service)

Tokio, Sept. 17.—Snow has fallen on Fujiyama to a depth unprecedented in the past sixty years.

Refugee Ship Held Up; Sailors Fear An Armed Mutiny

(Reuter's Service)

Marseilles, Sept. 18. — The steamer Burgermeister von Melle, which is repatriating to Odessa several hundreds of Russian refugees to whom Brazil refused admission as immigrants, has been held up in Ajaccio Harbor, the crew refusing to sail until the steamer has been thoroughly searched for arms. A military guard will be placed on board, the sailors fearing that the refugees, who are terrified at the prospect of returning to Russia, may seize arms.

CHINESE ARE SAVED

(Reuter's Service)

London, Sept. 16.—Thirty-seven of the Chinese crew of the oil-tanker Patella, belonging to the Anglo-Saxon Petroleum Company, which recently foundered off the coast of Portugal, have been landed at Liverpool.

WELCH COAL WANTED

(Reuter's Service)

London, Sept. 16.—There is an improved demand apparent for South Wales coal for the East. Tonnage has been chartered on the Baltic Exchange to carry coals from South Wales to Sourabaya at 18s. a ton.

THE FEARON, DANIEL COMPANY

PAINT GUESSING CONTEST

$175.00 TO BE GIVEN AWAY.

If one gallon of Sun-Proof Ready Mixed Paint will cover 600 square feet, how long would it take a grasshopper to cross the Gobi Desert?

The Fearon, Daniel Company Paint Department started September 1st to redecorate the Main Dining Room of the Astor House and they are keeping close tab on the hours, minutes and seconds for the entire amount of labor consumed. When this work is completed, the Paint Department will hand over to the Manager of the Astor House, Mr. W. S. Bardarson, the correct number of hours, minutes and seconds in a sealed envelope to be placed in his safe until opened in public on the night of September 24th at 9.30 P.M.

$175.00 will be given away to the ones guessing the nearest number of working hours consumed by The Fearon, Daniel Company Paint Department in re-decorating the Main Dining Room.

In arriving at the number of hours consumed, we consider one man's working day equivalent to eight hours, two men one day 16 hours, etc.

If you are not present at the dinner your check will be mailed. Everyone is entitled to but one guess.

No employee of The Fearon, Daniel Company or Astor House, or their families, are eligible for this Guessing Contest.

Attached coupon can be mailed either to The Fearon, Daniel Company Paint Department, the Astor House or placed in the Contest Box at the Astor House.

FIRST PRIZE:—To the one guessing the nearest number of working hours $100.00
SECOND PRIZE:—To the one guessing the next nearest number . . . $ 50.00
THIRD PRIZE:—To the one guessing the next nearest number . . . . $ 25.00

More Guessing Coupons can be obtained from The Fearon, Daniel Company Paint Department by communicating with them, 18-B Kiangse Road.

CASTORIA
for Infants and Children.

What is Castoria?

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

The signature of Chas. H. Fletcher is on every wrapper of genuine Castoria

Physicians Recommend Castoria.

"My patients invariably praise the action of your Castoria."
W. W. TURVEN M. D.,
Buffalo, N. Y.

"I use your Castoria and advise its use in all families where there are children."
J. W. DINSDALE, M. D.,
Chicago, Ill.

"During my medical practice I know of several cases where your Castoria was prescribed and used with good results."
E. MORGNIES, M. D.,
St. Louis, Mo.

"Your Castoria is the best remedy in the world for children and the only one I use and recommend."
AGNES V. SWETLAND, M. D.,
Omaha, Neb.

"Your Castoria is certainly the greatest remedy for children I know of. I know no other proprietary preparation which is its equal."
B. S. SCHWARTZ, M. D.,
Kansas City, Mo.

"I have used your Castoria as a purgative in the cases of children for years past with most happy effect, and fully endorse it as a safe remedy."
E. D. BENNER, M.D.,
Philadelphia, Pa.

SHANGHAI LAWNBOWLERS LOSE AT HONGKONG 28-22; THE LAST WOOD WON GAME

Preliminary Match With K.C.C. Goes To Hongkong By One Lone Point

(Special Wire to The China Press)

Hongkong, Sept. 18.—Hongkong won the Interport lawn bowls match here yesterday, in the best game that has ever been seen in the Crown Colony. The score was 28-22.

The teams lined up as follows:

HONGKONG	SHANGHAI
Ferguson	Shaw
Hamilton	McAllister
Gerrard	Landers
Clark	Marks

In the last head it would have been possible for Shanghai to tie, but Hongkong laid the shot with the last wood.

Hongkong, Sept. 15.—Lawn bowls enthusiasts assembled in full force at the Kowloon Cricket Club yesterday afternoon when the Shanghai team played their game since their arrival in the Colony. The Kowloon Cricket Club put out practically their strongest side and while not fancying their chances against the strong combination opposed to them, were fully confident of giving the visitors a good game. As it turned out their confidence was not misplaced, for the Cricket Club gained one of the most exciting victories seen on the green for many a day by a single point. At the 20th head the Kowloon team was leading by 20 to 17 but at the next the visitors obtained a couple and with the third ball missed by an eighth of an inch to make the match a draw.

The match was keenly contested throughout and was anybody's game right up to the last head. Shanghai started off confidently, scoring a single on each of the first five heads. McMurtrie's men then had a look in and by compiling a couple of threes and a two made it eight to five at the eighth head. Shanghai reduced the lead by one at the next but with another three Kowloon went further ahead. The next two heads were taken by Shanghai and at tea time the score stood 11 to 9 in the Club's favor.

Tea over, Shanghai went off strongly and were a couple of points to the good at the fourteenth. Heavy scoring by the locals made it 18 to 13 at the seventeenth and the home supporters confidently looked for ward to a victory for their team Shanghai recovered on the next two, being then only one point behind. Accurate play by the home team at the next head put them three up on their rivals with only another head to play. Shanghai made a great effort to pull the game out of the fire. They secured a couple and then with the third ball failed by a fraction of an inch, and were compelled to ackowledge defeat by a single point. There was considerable excitement towards the end and at the close of the game the K. C. C. representatives were heartily congratulated on their fine victory.

The teams were as under:

K. C. C.	Shanghai
1 R. C. Hunter	1 J. Keefe
2 H. Overy	2 A. J. Brown
3 J. Gibson	3 G. McAleste.
Skip, J. McMurtrie.	Skip, J. Shaw

Mr. C. Bond satisfactorily discharged the duties of umpire, and Messrs. J. P. Robinson and H. F. Landers officiated in the capacity of scorers for K.C.C. and Shanghai respectively.

The full scores were as under:

Kilbane Holds His Title Tight

(Reuter's Service)

Cleveland, O., Sept. 17.—In a 12-rounds contest for the featherweight boxing championship of America, Johnny Kilbane, the holder, knocked out Danny Frush in the seventh round. The terms provided that Kilbane should receive $60,000, win, lose, or draw, while Frush gets $2,500 and training expenses.

SHANGHAI BOWLS TEAM WINS TWO GAMES AT H'KOW

Local Talent Score 26-13 And 28-10 Against The Riverport Teams

Hankow, Sept. 16.—The green was again in excellent condition for the above match Wednesday, which was played between the following teams:

Shanghai:	Hankow:
David	Hewitt
Lloyd	Macartney
Poignand	Miller
Phillip	Kirkhope

Shanghai won by a score of 26 against 13.

In the beginning Hankow led off and got to 10 before the other side started, and them Hankow had no further look in until their opponents were on the 13 mark when they drew up to 12. Shanghai then gained 2 and the Hankow club gained a 1, getting on to the unluckly 13 from which they never were able to get off. Throughout the game Shanghai persisted in playing short ends, while Hankow played long ends. Shanghai's combination was absolutely perfect and rendered it impossible to praise any one of the team more than another.

The following are the scores:

	Shanghai:		Hankow:	
1	—	—	1	1
2	—	—	3	4
3	—	—	1	5
4	—	—	4	9
5	—	—	1	10
6	1	1	—	10
7	1	2	—	10
8	2	4	—	10
9	3	7	—	10
10	4	11	—	10
11	2	13	—	10
12	—	13	1	11
13	—	13	1	12
14	2	15	—	12
15	—	15	1	13
16	2	17	—	13
17	1	18	—	13
18	3	21	—	13
19	1	22	—	13
20	1	23	—	13
21	3	26	—	13

Shanghai was again too strong for Hankow in the match played yesterday in a small typhoon with the Golf Club. The visitors went ahead from the start and the local team only once scored on two consecutive ends. The fours were:

Shanghai:	Golf Club:
Lloyd	Gray
Smyth	Clough
Chilvers	Landy
Philip	Godwin

Although the Shanghai team were all excellent Philip, their skip, was undoubtedly the most brilliant player. However hard he position was he never seemed to fail and watching him play one obtained the idea that bowls was one of the easiest of games. It is now apparent that the visitors are getting to know the local green and with this and their determination not to be beaten again the remaining clubs who have to play them during the week-end will have a hard fight for it. The scoring of yesterday's game was as follows:

	Shanghai:		Golf Club:	
1	1	1	—	—
2	2	3	—	—
3	6	9	—	—
4	—	9	3	3
5	1	10	—	3
6	—	10	2	5
7	2	12	—	5
8	—	12	1	6
9	—	12	1	7
10	1	13	—	7
11	—	13	1	8
12	1	14	—	8
13	1	15	—	8
14	—	15	1	9
15	3	18	—	9
16	1	19	—	9
17	—	19	1	10
18	3	22	—	10

UNIVERSITY OF WASH'N BOOKS GAMES IN TOKIO

Series Includes Contests With Waseda And Keio Nines

Tokio, Sept. 14.—Five games with the Waseda and Keio university nines have been scheduled by the University of Washington baseball team which arrived in Japan Friday night on the first stop of their playing tour of the Far East. The dates for these contests were just decided yesterday and it will be several days before the complete schedule for Tokyo will be announced. It will, however, include about 12 games, it was said yesterday.

The opening gome will be with the crack Waseda nine, which returned in July from a visit to the United States, on the Waseda Diamond Saturday afternoon. They will meet Keio the following afternoon. On Friday, September 23, the second game with Waseda will be played; the second with Keio will be played Saturday, September 24, with another game with Waseda on the following day.

These games should prove unusually interesting. It appears now that the teams are pretty evenly matched. In America Waseda dropped three games to Washington and won two, which gives a line on the relative strength of the two. The University of California team is the only lead to relative dope on Keio and Washington. The two American schools split four games even. In Japan Keio got the long end of the score in three out of four games with California. In two of these games Keio outplayed California and in one officially won tht game, which on merit shows a two and two split.

The Washington team worked out on the Waseda diamond the second time yesterday morning under the direction of Coach Allison. The men are out of form from the two weeks on board boat, and the rainy weather the last few days has placed a great obstacle in the way of their getting into tiptop shape in time for the opening Saturday.

Modern Fighters Succeed In Spite Of Management

Seldom has a boxer developed into a champion without a trainer or manager claiming the credit for fashioning the raw material into championship form.

If the boxer does not reach the top rung of the titular ladder the pugilistic Warwick declares the pupil was inapt. Many a manager has strutted proudly with banner inscribed "Maker of champions" and graciously absorbed all the glory resultant on the achievements of successful fighters. It goes without saying that a manager of executive ability who has the best interests of a boxer at heart can be of great assistance to a fighter. But to assume that a manager can take a novice and make a great boxer or a successful fighter of him is twaddle. Failures mark 99 percent of such efforts.

Nearly all skilful boxers have been instinctively efficient in self-defense. It is a natural gift to many men to be able to defend themselves from attack.

A cat is naturally a fine boxer, and the sparring of two kittens is most scientific. So with many boys who never had a boxing lesson in their lives but spar with great cleverness. If a boy with instinctive defensive skill has the advantage of seeing able boxers in action he patterns after them and soon develops into a proficient boxer.

No manager or trainer can improve the boxing style of a man unless he has natural ability in that direction, and all that the teacher can do is to suggest changes in in attitude or manner of delivering blows or avoiding attack. If the pupil has a groundwork of ability, including speed of hand and foot and a cool head he soon becomes expert. On the other hand, if the pupil lacks natural ability and the manager attempts to transform him into a champion boxer, failure is the only result.

Not only is boxing skill an inherent quality, but combativeness also is a natural gift.

It is true that a boxer of superlative skill may succeed, even though he lacks the fighting spirit, but a man of ordinary ability as a boxer has little chance of rising in the profession unless he is equipped with combativeness and hitting powers.

There have been many instances of men of little boxing skill winning titles through sheer strength, fighting spirit and punching power. Sullivan and Jeffries were leading types of that class of men.

Corbett was the opposite example, as he relied on boxing skill alone to bring him success.

All the classes in pugilism have been replete with examples of the two types of ring fighters above referred to. In looking over the list it does not appear that any of them owed their success to the teaching of any managers or trainers.

Lew Tendler And His Knock out Hands

Those are Lew Tendler's maulers showing the digits since having the first joint of his third left finger amputated. Tendler underwent the operation because the bone in that portion of the finger that was cut off was splintered. The Philadelphia boxer says his hands are improved now so far as punching is concerned.

GOV'R. FORBES' AM'N POLO TEAM LOSES AT H'KONG

Keen Game With American Veterans Won By Local Four

Hongkong, Sept. 14.—Several prominent members of the Mission including Mr. Cameron Forbes former Governor General of the Philippines, were members of an American polo team which played the Hongkong Polo Club yesterday afternoon. General Leonard Wood the new Governor of the Philippines, was received by His excellency the Governor, Sir Edward Stubbs, K.C.M.G. Lieutenant General Sir George M. Kirkpatrick K.C.B., K.C.S.I., American naval officers, and a number of well-known ladies and gentlemen were also present.

The teams lined up as follows, the Americans playing in white and the Club in red:

American team: Governor Forbes (back); Colonel F. B. McCoy U.S.A., Lieut. Colonel Gordon Johnstone, U.S.A., Major Peter Bowditch, U.S.A.

Hongkong: Major Timmis (back); Capt. Neville, J. E. H. Bibby, H. C. Sargeaunt.

Although defeated by five clear goals, the American team played strenuously and gamely. Features of the play were the clever work of Sargeaunt who scored two goals in quick succession in the second chukker and Governor Forbes who gave a dashing display in the fourth. Bibby scored the first and fifth, Hongkong goals. The final goal was the outcome of good combination with Timmis and Sergeaunt.

MINIATURE SWIMMING GALA TONIGHT WILL FINISH THE TRAINING OF INTERPORTERS

Nice Program Arranged For Finals Events Before Hongkong Trip

With the idea of giving the Shanghai interport swimming teams a final bit of training, and incidentally to help out with the financing of the trip to Hongkong next week a miniature swimming gala will be given at the Municipal Baths tonight.

The program tonight will include a relay race between the interport selections, Siemssen, Tordy, Brodie, Goldman and Remedios, and a team composed of Brown, Bertuet, Macartney, Ozorio and Reid, which is expected to provide some speedy swimming. Each man will swim two lengths or 200 feet. The latter named five will be given 15 seconds handicap by the interporters.

An exhibition of diving will be given as well as water polo match between the Interport VII and The Rest. The VII will play Messrs. L. Goldman, C. J. Encarnacao, A. Remedios, MacCabe, Brodie, J. J. Brown and A P. Goldman, while The Rest will have Messrs. Wilson, Berthet, Macdonald, Mears, A. J. Brown, L. Encarnacao, and A. Remedios.

The following members will compose the Interport team: E. A. Brodie, J. B. Brown, C. J. Encarnacao, A. P. Goldman, R. W. MacCabe (Captain), F. A. Remedios, E. A. S. Siemssen and J. R. Tordy, and it may be said that, thought this aggregation is by no means Shanghai's best more especially in the matter of water polo, still they form as strong a body as has ever gone down from Shanghai to compete against the Crown Colony's best swimming and water polo exponents.

It has been a strange coincidence that, on both the previous occasions when a Shanghai team visited Hongkong, the Model Settlement representatives come off best in the straight swimming events, though they lost the water polo match which carries a lot of points (7, on this occasion).

In 1909 MacCabe won the 220 quarter and half mile events, also capturing the Throwing the Water Polo Ball competition in 1911. Berthet won the 100, 220, 440 and 880 yards titles. Shanghai scored nothing else than these individual victories in 1909 and 1913.

WOOD'S DECISION TO ACCEPT GIVEN FILIPINO ACCLAIM

(Reuter's Pacific Service)

Manila, Sept. 8.—The decision of Major General Wood to accept the governor-generalship of the Philippines has been received with utmost satisfaction, not only by the American and foreign community but by the authorised spokesmen of the Philippines. General Emilio Aguinalde expressed himself as delighted with General Wood's willingness to accept, and Speaker Osmena issued a long statement of a similar nature.

"I am sure I am voicing the sentiments of the Filipino people when I say that the acceptance by General Wood of the governor generalship constitutes a new and solid guaranty that the administration of the Philippines will be just, liberal, progressive and in sympathy with Filipino aspirations," said Mr. Osmena. "His determination to accept the post is an example of unequalled public spirit."

Chief interest now centers in the question of the vice-governorship. General Wood and Mr. Forbes are known to be strongly in favor of the selection of Colonel Frank R. McCoy, a member of the mission and a distinguished soldier of long service in the islands. Owing to the fact that General Wood will probably hold the governorship for only a year or two, the choice of a vice governor who would probably succeed him is felt to be of great importance. It is thought possible that Washington will give the post to a "political" candidate despite the strong intimations of General Wood in favor of Colonel McCoy. Representative Towner of the House Committee on Insular Affairs is mentioned locally as a possible appointee.

It is expected that all the Filipino department heads will hand in their resignations to General Wood upon his appointment but that a number of them will be retained in their present positions.

PRINCE HUMBERT READY FOR ARMY

Italy's Future King Will Also Be Trained For Naval Officer

Rome, July 14.—Prince Humbert Italy's future King, has just taken his degree with honors at the Military School, Rome, where he has been a student for some time. His smile as he left the school showed the pleasure he felt at getting through the test so well. And the other cadets, who like him very much, shared his satisfaction.

The Prince probably will try before long, a taste of naval life and instruction and there is talk of his going for a cruise on one of the Italian warships. However nothing is settled yet and for the moment he is at home with his sisters and parents.

Prince Humbert is now nearly seventeen years old. His elder sister, Princess Yolanda, is twenty, Princess Mafalda is eighteen, Princess Giovanna fourteen and Princess Maria seven.

Princess Yolanda is very fond of motoring. Recently she took a course of instruction and passed the examination all motorists must pass in Italy before being allowed to drive a car. She only drives in the grounds of the royal home at Villa Savoia, which the King bought some years ago from Prince Dragaccio. It was then called Villa Ada, for Prince Brancaccio built it for his wife, who was Miss Ada Field of Chicago. After the Princess's death the Prince did not care to live at the villa and the King made an offer for it, because the Queen did not like to have her children in the Quirinal Palace the heart of Rome, nor would she be separated from them or from the King when he had to stay in Rome for state business.

Villa Savoia is just outside the city, near the Porta Salaria, and has large grounds. The King drives in to the Quirinal for business nearly every morning and the children have all the advantages of fresh air. They lead very quiet lives and rarely see other children, so are used to amusing each other. They ride and motor in the park and sometimes a moving picture is ordered there to entertain them.

As the King goes to bed at 10 o'clock and gets up at 6, the whole household follows very simple rules, early rising being one of them. Each month the Queen's five ladies in waiting are changed, so that they can go back to their families.

The Queen is wrapped up in her family and home and seldom appears in public. She often visits hospitals and is an active worker in Red Cross affairs. But it is a long time since even a garden party was given at the royal palace, no ball since 1913, and it is said none will take place for some time because the King and Queen do not believe in making any display at a time when most of their subjects have to economise at their own tables on account of the very high cost of living.

On the twenty-fifth anniversary of their marriage, their silver wed-

to give them a present. But they asked that the money go toward founding schools and homes for waifs and strays. Queen Helena, who is a good organiser, will have a guiding hand in organising these schools.

Four Thousand More Shrinking Violets

Paris, July 30.—"A Frenchman is a man who wears a decoration."

This time-honored joke, popular with the French as well as with foreigners, is recalled today by the bulky number of the Journal Officiel issue, which contains the names of 4,000 citizens who have just been awarded the decoration of the Academy Palms, and who have the right to wear in the buttonhole the coveted violet ribbon as Officier d'Academie.

It is said that 40,000 people sought the coveted decoration this year. No awards of this order which was instituted by Napoleon in 1808 to honor distinguished publicists and educationalists, have been made since the great war.

The Chamber of Deputies has had to deal with questions as to why the list of the new awards of the order has been delayed. The Minister of Public Instruction explained that he was overwhelmed by applications for the order, so he was obliged to institute a more strict enquiry into the worthiness of the candidates.

Young Antony Asquith A Chip Of The Old Block

London, July 30.—Following the example of his father, Herbert Asquith, and that of his three uncles, young Antony Asquith, who is at Winchester School, has won a scholarship at Balliol College, Oxford. He goes to Oxford next term with an ambition to follow in the distinguished footsteps of his forears in prize-winning.

Antony is said to be clever but impractical, his bent being for music more than for the classics or the sciences. His father and uncles took honors in classics and in law.

Detective Robbed On Visit To Home Town

Kenosha, Wis., July 30.—W. S. Johnson, for forty years a Chicago detective, declares that Kenosha pickpockets have been guilty of "lese majeste."

Ten minutes after he stepped off the train he discovered his wallet, containing $500, had been taken from an inside coat pocket. Now Johnson is "gunning" for pickpockets.

WELL FURNISHED ROOMS TO LET.

With all conveniences and full board.

Suite consisting of sittingroom, bedroom with private bath, dressingroom and verandah.

Also, separately, two well-furnished bedrooms.

Arrangements can be made for the use of a private car for going to and returning from the office at fixed times.

GENSBURGER & CO.,
25 Avenue Edward VII.

Sporting Editor's Letter Box

Dear Sir.—In your paper of the third of September I noticed where the Huron had stated that she was still cleaning up the ball teams up north, or words to that effect, and that she had defeated the U. S. S. Albany.

To come down to fine points the only Navy team that has cleaned up everything up north is the twenty sixth division destroyer force team who claim the Championship of the Asiatic Station. So far we have defeated everything that we have played against, fourteen straight victories and no defeats. Among our victims were the U.S.S. Huron, the 35th Division, the U. S. S. Barker Hart, and the Albany. We played the Huron three games winning them all. One of them was a no hit no run, one a three hit and the third a four hit game. Some record I think.

If we ever get to Shanghai again which we hope we do we certainly would like to take the Shanghai team on if such is possible.

Hoping that the Shanghai baseball fans will soon be able to see a real ball team in action,

I remain,
ONE OF THE FANS.
U. S. S. Broome.
Chefoo, China, Sept. 12, 1921.

ENGAGEMENT NOTICE

THE engagement is announced from Tientsin, of Miss Rhea Cantorovich of Shanghai, to Captain Alfred T. Wright, of the 15th Infantry, U.S.A. 41517 S. 20

BATIK IS EXPENSIVE:

But Batik is exclusive.

The secret Javanese art of Batik is known only to a few families in the Dutch Indies, therefore the true handmade Batik is as expensive there as it is in Shanghai. Machine made imitations are sold for less but they bear no resemblance either in beauty or durability to the true Batik. Embroideries made by this process are classed among those most exclusive and most sought after. Beautiful specimens of this handicraft, made pieces for ladies wear in imperishable colours on fine silk, is on view (by appointment) at No. 1, Yu Yuen Road or at any time at Kelly Hall and Holtz, Squires and Ye Gift Shop.

ASSOCIATON OF CHINESE AND AMERICAN ENGINEERS

FALL MEETING, HANKOW
October 4 to 6, 1921

The attention of the members is called to the Annual Fall Meeting of the Association of Chinese and American Engineers to be held at Hankow, October 4th to October 6th inclusive. An interesting program is being arranged, details of which will be announced later.

All members are urged to attend this meeting and are requested to notify Mr. P. Y. Tsai, Acting Secretary, Chuchow-Chinchow Railway, Peking, as early as possible whether or not they will attend. This is especially desirable in order that sufficient time may be given in which to make all arrangements.

Chinese Government Railways

PEKING-HANKOW LINE

Short Term Bonds

In 1915, the Peking-Hankow Railway has floated a loan amounting to two million and five hundred thousand dollars ($2,500,000) which has been oversubscribed. Interests have been paid and bonds retired punctually.

With a view to develop the traffic along its line, to strengthen the old bridge, to erect new bridges, to increase the efficiency of its administration, the Peking-Hankow Railway floats, with the approval of the Ministry of Communications a new loan amounting to four million dollars ($4,000,000), bearing an interest higher than the previous loan.

Subscriptions will be taken place either at the Banks designated below, or at the Accounting Department or the Peking-Hankow Railway.

The regulations governing the issuance of the bonds are as follows:

Regulations governing the Issuance of Peking-Hankow Railway Short-Term Bonds.
(Improvement)

Art. 1. With a view to develop the traffic along its line, the Peking-Hankow Railway is authorised by the Ministry of Communications to float a short term loan, to be known as Peking-Hankow Railway Short Term Bonds.

Art. 2. The total amount of the bonds is fixed at four million dollars ($4,000,000) Peking currency.

Art. 3. The denominations of the bonds are of four kinds: namely, $10,000, $1,000, $100, and $50.

Art. 4. Interest for the bonds is 0.8% monthly.

Art. 5. Subscriptions will be taken place within one month and half, that is, from August 16th to September 30th, the tenth year of Chinese Republic.

Art. 6. The term of the bonds is four and half years. Interest for the first six months shall be paid in advance at the time of subscription. $500,000 bonds shall be retired in every six months by drawing, until the total issue shall be retired on March 31, the 15th year of Chinese Republic. The drawing shall be taken place on March 15 and September 15 of every year, supervised by representatives from the Ministry of Communications.

Art. 7. Subscriptions shall be closed at the end of September, the tenth year of Chinese Republic. Subscriptions paid before this date shall receive a monthly interest of 0.8%, to be counted by days, from date of subscription to the end of September which, together with the interest for the first six months (from November 1st, the tenth year of Chinese Republic, to March 31st the eleventh year) shall be deducted from the amount of subscription at the time when payment is made. Interest shall hereafter be paid semi-annually.

Art. 8. The bonds shall be sold at ninety two dollars and eighty cents ($92.80) per every hundred dollars ($100), but shall be retired at the par value.

Art. 9. Those bonds which have been drawn shall receive interests only up to the end of the term in which the drawing has taken place, whatever the date of payment will be.

Art. 10. Beginning from the time when subscription is closed, the Peking-Hankow Railway shall reserve every month $100,000 from its operating revenues to be deposited in the following banks which shall act as its subscription agents, the Bank of China, the Bank of Communications, the Continental Bank, the Kincheng Banking Corporation, the Sing Hua Savings Bank, the Salt Bank, etc., as gurantees for the payment of the bonds and interests.

Art. 11. The above-mentioned banks shall act as the agents of the Peking-Hankow Railway for the sale of the Bonds. But they shall from time to time advice with the Accounting Department of the Peking-Hankow Railway. Interests shall be paid and bonds retired through the same banks.

Art. 12. Detailed regulations governing the sale of the bonds shall be made separately.

Art. 13. The bonds shall not be registered in the name of the purchaser, but it may be so registered, if requested.

Art. 14. The bonds shall be good for guarantee money of the employees of the Chinese Government Railways.

Art. 15. The bonds shall be good for securities or guarantees of the contractors, merchants, and transportation companies who may have contracts with the Peking-Hankow Railway.

Art. 16. The matured bonds and interest coupons shall be good for cash payment to the Peking-Hankow Railway.

Art. 17. In case of loss or destruction by fire of the bonds the original owner or owners shall notify the police office at the place of his residence the number of the bonds and the conditions when they are lost or destroyed, and shall also notify the bank of issue. At the same time, the facts shall be published in at least two daily newspapers. After two months, the bank of issue shall certify the facts and request the Peking-Hankow Railway to issue new bonds to take the place of the lost or destroyed bonds. Matured bonds not redeemed within five years, and interest coupons not redeemed within two years, shall be considered as void.

Note—In case of dispute or disputes arising out of the interpretations of these regulations, the original Chinese version shall be considered as valid.

Conseil D'Administration Municipale De La Concession Francaise de Changhai

MUNICIPAL LOAN OF 1921

(20,000 debentures of Tls. 100 each),

Rate of interest 8% per annum

The "Conseil d'Administration Municipale de la Concession Francaise de Changhai" hereby invite subscriptions for 20,000 debentures of Tls. 100 each, according to the resolution passed at their General Meeting on May 30, 1921.

The conditions on which the Debenture Certificates will be issued are:—

1°—The Debenture Certificates are transferable, and the person whose name is entered in the Register of Debenture Certificate or Certificates, shall alone be recognised and treated by the Council as the lawful and rightful holder and owner of such Debenture Certificate or Certificates.

2°—The loan will be redeemable at par (Tls. 100) in not less than 10 years and not more than 30 years, from 1st July, 1931 and according to the figures determinated by the Council.

3°—The loan will bear interest at 8% per annum, payable on the 30th day of June and 31st of December in each year, when interest warrants will be issued to the registered owners.

4°—The property and income of the Municipality, deducting those which serve as security provided in the Municipal Loans of 1905, 1911, 1914 and 1916 are the security for the repayment of the money advanced and for the interest thereon in the present loan.

The Members of the French Municipal Council are not personally liable in any way for the payment of either principal or interests.

5°—Applications for debentures will be received at the Secretary's Office, Rue du Consulat.

A cheque representing the amount of debentures asked for must be deposited at the same time.

6°—Applications for Debentures under par will not be recognised by the Council.

7°—For further informations, apply to Mr. P. LEGENDRE, Secretary, French Municipal Council.

Shanghai, 1st July, 1921.
P. LEGENDRE,
40957 Secretary.

Electric Cooking

(2)

The Ideal Method

The Electric Oven, being free from the fumes of combustion does not require to be ventilated, therefore food cooked in it retains its flavour, the natural gases from cooked meat are not carried away through flues but retained in the oven. A clear, uniform heat is maintained which has the effect of closing up the surface of the meat or poultry, thus preventing loss by evaporation.

Electric cookers are hired out at Tls. 0.50 per month by the:—

Activities of the China Medical Board

BY ROGER S. GREENE

THE purpose of the China Medical Board of the Rockefeller Foundation is to co-operate with other agencies in the gradual development of a system of scientific medicine in China. In other countries preventive work in medicine first engaged the main efforts of the Foundation, since the fostering of public health presents the prospect of far larger results in the welfare of nations and individuals, for the expenditure of any given sum than an equal expenditure of effort and money on the treatment of the sick. In China, however, several factors have contributed to defer the initiation of direct activities in hygiene and preventive medicine by the Rockefeller Foundation.

In the first place systematic protection of the public health is properly a government function, and while private agencies can sometimes give valuable aid in such activities, their efforts are usualy most effective when they are subordinated to a carefully conceived program of some governmental unit such as a province or municipality.

In the disturbed political conditions now prevailing throughout China, with frequent changes in the government, and with the authorities preoccupied as they are with other more pressing problems, the prospects for the early development of public health work on a large scale have not been encouraging.

A second difficulty lies in the fact that confidence in scientific medicine is not sufficiently widespread to ensure the co-operation on the part of the people that would be necessary for the most effective work. Furthermore it is clear that while much of preventive medicine as it is known in the West immediately be applied to China, the conditions to be dealt with, whether biological, social or economic, are so different from those in the West that it is important that any large effort in public health should be preceded by a period of careful study of local conditions, in order that the measures undertaken may be adapted to them.

Finally it must be admitted that a highly trained personnel is as necessary for a public health program as for the manning of hospitals, and that the number of doctors now available in China is not sufficient for any considerable extension of either kind of work.

The problem of medical education was therefore indicated as that which first demand attention. With this in mind the following lines of activity have suggested themselves:

1.—Pre-Medical education, thorough strengthening of science courses in colleges.

2.—Medical education:
(a) undergraduate courses.
(b) training of investigators, teachers and clinical specialists through prolonged graduate courses and through practical work under proper guidance.
(c) stimulating of private practitioners and missionary doctors, both foreign and Chinese, by short graduate courses.

3.—Medical research, especially with reference to problems of the Far East.

4.—Improvement of hospitals as training centers for internes and nurses, as models for imitation, as indispensable adjuncts to the practising physician, and as means of popular education.

5.—Diffusion among the Chinese people of a knowledge of modern medicine and public health.

6.—Fostering of professional ethics through development of character and ideals of service.

The most important contribution of the China Medical Board has been the reorganisation of the Peking Union Medical College, which has included the gathering of a large staff of teachers, nurses, and administrative officers, recruited in part from institutions in the United States, Canada and Great Britain, in part from among persons with considerable experience in medical missionary work in China and now in increasing numbers from well trained Chinese. The staff now includes 15 pre-medical teachers, 57 teachers in the Medical School, 31 nurses, and 48 administrative and technical officers. Of these 123 are foreigners and 23 Chinese trained abroad. New medical school buildings, capable of accommodating classes of 25, to be increased by some adjustments to 50, and a 250-bed hospital, have just been finished and are now in use.

A Pre-Medical School with a three-year course, receiving middle school graduates with a good knowledge of English, has been established to give the prospective medical students thorough preparation in physics, chemistry, biology, English and Chinese. Students are also required to study either French or German during this period. The registration at the beginning of the school year 1920-21 was 27 in the first year, 23 in the second and 9 in the third. The maintenance for the time being of this preparatory school has appeared to be a necessity, since though there are some colleges in China giving good courses in one or two of the sciences, some of the best institutions are very weak in these subjects, and none of them has thus far sent up students properly prepared in all three sciences for admission to the Medical School.

At the same time an attempt has been made to help other institutions to give better instruction in physics, chemistry and biology. Direct grants have been made for this purpose to St. John's University, Fukien Christian University, Canton Christian College and Yale-in-China, to be used towards both buildings and staff, while a small part of a grant to the Shantung Christian University Medical School has also been used for the pre-medical courses.

The Medical School proper of the Peking Union Medical College was opened in the fall of 1919, and there were last year 13 students in the first and second year classes. The higher class begins its clinical studies in the fall of 1921. Side by side with the undergraduates teaching a number of Chinese and foreign doctors have been receiving instruction, some being admitted to regular undergraduate course, a few attending special courses for graduates, and a larger number entering the clinics for practical work in the various departments. During the past twelve months there have been 72 such persons enrolled at different times, some of whom hold appointments as internes, residents or assistants, the allowance paid for most of these positions being so much lower than those prevailing outside, even in mission institutions, that the educational significance of the service is clearly emphasised, and at the same time the danger is avoided of accustoming the young graduates to salaries larger than most of them could get elsewhere.

While the China Medical Board has now been at work nearly seven years, it is still one of the youngest of the many foreign organisations at work in this country. Coming as it does into a well prepared field and enjoying the friendly co-operation of so many who share the same interests, it hopes to make in time, with its growing experience, a helpful contribution to the progress of the great Chinese people.

(Note: Another article in this series by the same writer will be published tomorrow.)

WORRY

The thing called worry, if you please, is quite a dangerous disease so dodge it fully if you can and thereby be a lucky man.

For worry, if it gets control, will make you pay a heavy toll. Just let it once get into power and you regret it every hour.

There's nothing like the worry ill that's out to conquer and to kill. it takes the joy of life away and quickly turns the hair to grey.

It kills good humor, quells the grin, and places frowns where smiles have been. So reader, if you'd be in luck, when worry comes be wise, and duck.

—N. A. L.

CARPENTIER IN BUSINESS

One can hardly picture Georges Carpentier in business, or as a working man, but there is no more industrious individual in his workshops than the handsome boxer.

Just recently he decided to devote himself to the aluminium saucepan business, and his factory has since been doing a roaring trade in complete kitchen utensils.

His latest product is the "Carpentier Ash-tray" with the legend "World's Boxing Championship 1921."

But like the English cricket team he lost the "Ashes" of the pugilistic world. Perhaps Dempsey will get busy and patent something that will send buyers to sleep quickly.

* * *

THE ONLY SAFE SPOT

Everybody knows that the Eiffel Tower still stands, but everybody does not know that M. Eiffel still lives. He is in his eighty-ninth year, and the other day he told a good story to a party of American engineers whom he was entertaining to luncheon.

During William Morris' last visit to Paris he spent a great deal of his time at the famous tower.

"I have my meals there," said Morris. "I write my letters there and I'd sleep there if there were any beds."

"You are evidently much impressed with the Tower," replied a friend.

"Impressed!" exclaimed Morris "No such rot! I go to the Eiffel Tower when I am in Paris because it is only when I am there that I can't see the wretched thing!"

HONGKEW MARKET SCANDAL

Editor, THE CHINA PRESS:

Sir.—I have often been tempted to write a few lines to you regarding the state of affairs in the Hongkew market, but have not heretofore had time.

It is a scandal that should be remedied by the Police. No credit can be given to the Police for detailing a Chinese Constable to the market, for he has no sense of duty in the little brain that he possesses of how this duty should be performed to prevent trouble, perhaps culminating in murder on some future occasion.

I would suggest the question should be taken up by some keen observer for at least a month's visitation to the market to write a report of all that occurs in that time—this for the enlightenment of the Police and public and to protect the public against a gang of ruffian market dealers who defy the laws of the Settlement.

On one occasion I saw a person bargaining for some meat; an argument occurred; the butcher took his chopper threatening to assault the buyer if he did not accept his short weight; there being no redress the man had to take it through fright and intimidation. On another occasion a lady (foreign) bargaining for a piece of meat was sworn at by the butcher; the poor woman felt so ashamed at the insult with no remedy at hand that she left the stall at once to avoid further humiliation, while the other butchers who saw the insult offered, commenced to laugh.

A Chinese woman bargaining with a fish dealer was cheated in weight; she refused to pay and was insulted in filthy language by the dealer; the woman called a Chinese constable to settle the dispute. This worthy took the part of the fish dealer and ordered the woman to pay for the fish regardless of the shortage in weight, which was considered by him as only a small matter as well as the insult offered.

A purchaser of fish at the stall had it weighed and in an instant the fish maw or belly was taken away from the fish; the buyer refused to pay on account of the theft, resulting in an uproar and a free fight, because the dealer tried to force the man to buy against his will. This is a usual occurrence.

Japanese and Chinese women are often insulted by being tickled under the chin; these rascals know the women are helpless, because they cannot get redress from a Chinese constable. These are only a few instances of the disturbances of the peace in that market through cheating in weight, theiving back goods from the baskets of the customers while they are otherwise engaged. This is a regular practice.

The dealers are also in the habit of throwing dirty fish water over the customers when in a quarrel and the other dealers usually collect a gang to assault those that have been quarrelling with one of their gang.

The question I would like to place before your observation is: why not appoint officers to inspect scales and weights at uncertain times? Why not appoint several detectives to look after the welfare of the public in the market. Indian and Chinese police take the part of the dealers because they have a card up their sleeves; I need not say more; the rest you will know by and through experience.

A proclamation in Chinese and English should be posted all over the market warning the dealers that they will be severely punished for molesting and cheating the public as aforesaid.

Thanking you for the insertion of this letter, I am, yours respectfully,

PROTECTION.

Shanghai, Sept. 16, 1921.

"One leads where many follow."

Hall's Distemper has led the way to a new era in house decoration—the era of brighter, cleaner and healthier homes.

It is the most durable of all decorations, lasting for years with freshness unimpaired, whereas wall-papers deteriorate from the first day by fading and accumulating dust and dirt.

Hall's Distemper is a thorough disinfectant, and is applied directly upon the wall, forming a hard surface, from which dust and dirt may be "spring-cleaned" by lightly sponging with warm water.

Hall's Distemper (Registered Trade Mark)

is a unique preparation and has the recommendation of leading sanitary authorities, architects, and decorators everywhere.

Avoid disappointment by refusing substitutes which do not possess its advantages.

Of all Decorators.

Notes Of The Women's Clubs

The development of Chinese literature and art preceding the Han Era is the subject chosen by the Literary Department of the American Woman's Club for study during the coming year. As the date of the Han Era is 200 B.C., some of the oldest Chinese documents and art treasures in existence will come within range of the subject.

A program for the year has been worked out by a committee which has been meeting weekly for reading and discussion during several months. There will be a few lectures by experts, though the majority of the papers are to be written by department members. The department will be responsible for perhaps three of the general club meetings.

As Confucius, Mencius, and Lao-tze lived in the period selected for study, the department will have an opportunity for the study of Chinese philosophy, religion, and ethics as expressed in the writings of the sages. The tentative date for the first meeting is October fourteenth. Mrs. H. A. Wilbur will continue to serve as chairman.

Of special interest to lovers of Chinese art is the publication in book form of papers read in the department during the club year ending last May. Many of the papers offer material that has not hitherto been published, and practically all of them are freshened by original research. The volume, which will be ready for distribution about October fifteenth, will include photographs of beautiful porcelains and other Chinese art treasures. It will also contain accounts of the most important objects studied during visits to nineteen local collections. Reverend Evan Morgan's paper on "Chinese Sacrificial Bronzes" is a pioneer study of the subject, and Mr. Charles Kliene's translation of "The Legend of the Cowherd and the Weaving Maid" is a fresh version of an interesting Chinese folktale.

Copies of the book may be ordered from Mrs. H. A. Wilbur, 124 Dixwell Road (North 775); or from Mrs. Fred Van Buskirk, 60 Kinnear Road (West 109). The price will be announced about October first.

MEETING OCT. 4

The first meeting of the American Woman's Club, to take place October fourth, will be devoted to officers' reports on the plans for the year, with discussion by the members. There will be no formal program. The tentative program for the year's meetings will be completed after the return of the president, Mrs. Frank J. Raven, from Mokanshan.

BRITISH ASSOCIATION

The British Women's Association will hold a general meeting on October thirteenth, the purpose of which will be a discussion of the activities, program, and financial policy for the new year. Members are cordially invited to forward constructive suggestions on these subjects to the club's headquarters, 9 Kiukiang Road, before October first.

WOOD CREDITED WITH FAVORING FILIPINO ARMY

(Reuter's Pacific Service)

Manila, Sept. 10.—The building up of a strong defensive force in the Philippines, probably by the reorganisation of the Philippine National Guard, is indicated as one of the first measures which General Wood will put before the Legislature as soon as he assumes office as Governor-General.

In a statement yesterday General Wood is quoted as saying:

Common-sense tells us that we need here a force adequate for our protection. We have nothing but the constabulary, which is not sufficient for national defense purposes. I am going to work for the establishment of the needed force, or at least the basis of it.

It is believed that General Wood contemplates the formation of a native reserve force to serve as a nucleus which might be expanded as circumstances dictated. Properly trained and officered, such a force would, in the opinion of military authorities, be a valuable adjunct to the regular army. At present the only native force, except a few regiments of Philippine scouts, is the constabulary.

TEXACO HOME LUBRICANT
Texaco Home Lubricant is a light lubricating oil specially prepared for household uses.
Think of the many items of household equipment that should be lubricated regularly—sewing machines, lawn mowers, clocks, pianos, weighing scales, and dozens of other similar pieces of mechanism.
Texaco Home Lubricant is an oil exactly suited to this kind of lubrication work. It is also an excellent wood-work polisher and if applied to such articles as cutlery, guns and locks will prevent rust and corrosion.
Home Lubricant is an effective automobile body polisher and a superior lubricant for the magneto.
It is sold in handy cans with an oiler top—ready for service.
You can't help Saving Home Accessories by using Texaco Home Lubricant regularly.
